

COMPLETED FOR FIELD
USE REQUESTS

All youth groups and leagues are required to complete the NYSIR AED Supplemental Form for each Field Use request in the Seaford UFSD.

As required by §3000-f of the New York State Public Health Law, Youth Sports leagues must establish and maintain an Automated External Defibrillator (AED) Implementation Plan. In addition to complying with this statutory requirement, the Seaford UFSD requires all youth groups and leagues using District facilities to provide its own AED and to have at least one person who is currently trained and certified to effectively use the AED to be on-site and present during all camps, games, practices, and other youth sports activities.

Compliance with the above falls with the youth league and not with the Seaford UFSD.

The NYSIR Facility Use Supplement-Youth Sports Groups-AED Supplement will need to be signed and returned as acknowledgement, prior to any field use in the district.

Organizations requesting field use will receive the AED Supplement form with each request made on ML Schedules. No field use will be approved until a signed AED Supplement Form is received in the Buildings and Grounds office. This form will be transmitted to the organization via email once a request is received.
