Dear Parent or Guardian,

The Gallipolis City School District believes that parent and family involvement is an important part of the educational program. Current research indicates that a home-school partnership and greater involvement by parents and families in their children's education generally result in higher achievement scores, improved student behavior, and reduced absenteeism. All parents, family members, and foster caregivers are encouraged to take an active role in the education of their children or foster children.

A strong school-to-home connection is important for student success. Below are activities parents are welcome to participate in to make this connection a stronger one.
