Tracy Ware, EdS

Educational Leader | Leadership Coach | Middle School Team Member

Hello Middle School Team,

I am honored and excited to join the middle school team next year. Throughout my career, I have had the privilege of serving students, teachers, and leaders at the school, district, and international levels. My work has centered on building strong cultures, strengthening instructional leadership, and developing leaders who create clarity, belief, and results for students.

My experience includes serving as a principal, founding principal of an innovative K-8 school, Cluster Manager/Assistant Superintendent in Abu Dhabi, and Director of Leadership Professional Learning and Development. In these roles, I have coached leaders, supported leadership teams, launched development programs, and partnered with schools to improve culture, collaboration, and student outcomes.

I believe leadership begins with relationships. My goal is to learn the strengths, traditions, needs, and hopes of our school community so I can serve well, support teachers, and help create the conditions where every student feels known, challenged, and encouraged to grow.

A few things about me:

- I am passionate about coaching educators and helping leaders grow with confidence.
- I am a Certified Gallup Strengths Coach and John Maxwell Team Coach.
- I enjoy writing, speaking, healthy living, gardening, and time with family.
- I look forward to learning from this team and contributing to the great work already happening for students.

I look forward to serving, learning, and leading alongside you next year.

Joining the Team

Next School Year

Leadership Focus

- Culture and relationships
- Instructional leadership
- Leader development
- Clarity and collaboration
- Student-centered decisions

Personal Motto

Lead with belief, clarity, and care.

Looking Forward To

Getting to know the students, staff, families, and traditions that make this school community special.
