

4th Annual Sankofa Summer Academy Research Day

Thursday, July 16

9:30 am – 11:00 am

The Center of Black Student Excellence
1022 E. Market St. Long Beach, CA, 90805

Research Day is the culminating celebration of four weeks of inquiry, research, and learning in our K–8 Black Studies summer program. Rooted in Sankofa, students have explored the histories, cultures, and contributions of Black people to broaden their historical understanding to better understand themselves and our world today.

Please join us and help celebrate not only what they have learned, but also their growth as young scholars who understand that knowledge is strengthened when it is shared and used to uplift our community and one another.

**We look forward
to celebrating with you!**
