

Georgetown High School

Senior Parking Lot Information 2026-2027

The Tradition

Renting a parking spot in our Senior Parking Lot is a privilege, and students doing so agree to follow all protocols listed below. Failure to do so will result in suspension of lot privileges and potential disciplinary action.

Paint/Painting

You must provide your own paint for design and for your design, and for the ending cover-up process (if you choose to cover yours at the end of the year--not required)

- **Water Based Exterior Latex Paint ONLY**
- **HIGHLY suggest using primer before you paint your design to avoid chipping.** Most spaces have 3 years of paint on them, and they are vulnerable to the paint chipping off.
- NO reflective , flourescent, or spray paint
- NO oil-based paints

Students must attempt to keep a 6 inch unpainted border between white parking lines and the paint in their spot.

Using painters tape to mark off the border is very beneficial for maintaining the border while painting.

Design

Design must be approved prior to selection of parking spot. Final painting must match the approved design as closely as possible, or privilege may be revoked.

Prohibited Design Elements

- No offensive language, pictures, or symbols
- No double meanings (figures of speech)
- No gang-style tagging/grafiti
- No references to drugs, alcohol, or weapons
- No social media handles/@s/nicknames
- Must be school appropriate in all ways
- You cannot change your submitted, approved design or alter your design at any time throughout the school year.

Reservation and Painting Process

- Spots may ONLY be reserved on Reservation Day until the designated time or sold out. If there are spots left after that, reservations may be made by appointment only.
- Spaces may ONLY be reserved after presenting proof of purchase of 2026-2027 Parking Permit
- Payment [cash or check ONLY] is due when application is received.
- Parking spots will be reserved on a first-come, first-served basis and are not considered reserved until application has been approved and payment has been made.
- Spots may be painted any time spot is available after it is reserved.

Enforcement of Rules

- Every effort will be made to enforce the exclusivity of the parking spaces the first weeks of school and beyond.
- Students parking in another student's space will be asked to move their vehicle ASAP. Subsequent violations by the same student may result in disciplinary action.
- Students with paid spaces may be required to carry a placard in their vehicle with their name/space number on it, to be hung on the rearview mirror and/or presented to security/administrative personnel upon request.
- StuCo personnel and Advisor(s) will be responsible for maintaining the lot throughout the year, including compliance with parking (as possible, according to school rules) and ensuring painting/graphics remain consistent with approved designs and standards.
