

Osceola Fundamental High School is concerned for your students' safety and is always finding ways to improve campus security. Each parking tag that is purchased is linked to a vehicle that is registered for that specific student spot. This allows us to know who is parked on campus and who is the owner of that vehicle. This system, when followed correctly, allows our campus administration to see any unauthorized vehicle parked on our campus.

RULES:

1. Tags are only legal for the person that purchased it from bookkeeping.
2. If you leave school during the school year, the tag must be turned into the bookkeeping office.
3. You must update your vehicle registration with bookkeeping if you have a change in vehicles.
4. Your tag **CANNOT** be loaned, rented, sold or given to another student. Each hang tag is linked to a vehicle and its license plate.
5. Anyone parking on campus that causes damage to school board property and/or another vehicle should be reported to the office. If found responsible for any damage to property, the individual could have their parking privileges suspended, revoked, or receive disciplinary action.

Please review these rules with your student. Please sign below as acknowledgment that they understand these important security measures and rules.
