

Gideon Teklu

COO & Director of IT

With more than 25 years of experience in educational technology, Gideon has been dedicated to helping schools solve complex IT challenges while creating secure, reliable, and innovative learning environments. Throughout his career, Gideon has led technology initiatives involving network infrastructure, cybersecurity, cloud services, classroom technology, and strategic IT planning. He is passionate about partnering with educators and administrators to ensure technology enhances teaching, learning, and school operations. His approach combines practical problem-solving with a commitment to exceptional service, enabling students, faculty, and staff to confidently leverage technology every day.
