

SUPPORTING YOU, SO YOU CAN SUPPORT YOUR CHILD

OUR WORK

FAST provides families with individualized assistance, training opportunities, emotional support, help with accessing community resources, and funding.

OUR GOAL

We aim to strengthen and empower families.

FAST

**Family Advocacy,
Support, & Training**

REACH OUT

If you have concerns about your ability to care for your child's needs, education, and access to community support, you are welcome to contact us. Children must have an intellectual/developmental disability or have a dual diagnosis of I/DD and mental illness to be eligible for FAST.

ABOUT OUR PROGRAM

The FAST program is coordinated by Families Together, Inc., the Parent Training and Information (PTI) Center and the Family-to-Family (F2F) Health Information Center for Kansas. Funded by DCF, the FAST program serves families of children birth through 17 who have intellectual/developmental disabilities or a dual diagnosis.

Regional Staff

Our regional team provides family support through person-centered planning, IEP assistance as well as meeting attendance, training, and connecting with other community providers.

Connections

Community partnerships and connections with other families are fostered through FAST so you know you aren't alone.

Funding

Our program allows you to apply for funding to cover costs that improve your ability to care for your child.
