"Worn" and "tired" are some of the words that have been used to describe the interior of Davison High School. We agree and it is especially evident now with the new main entrance and Performing Arts Center that the rest of the building just doesn't "match." We are beginning to focus on updating the interior of the high school and one of those projects was recently completed with monies from our Building and Site Sinking Fund. One of our stairwells - near the north entrance (English wing) was recently updated with new paint and treads on the stairwells. The painting took place during Intersession I while the stair work was completed over the holiday break.

Updating of stairwell near English wing/north entrance at DHS
