Asthma Action Plan

Dear Parents/Guardians,

You have indicated on school records that this student has Asthma. It is important to have an emergency action plan in place for this student. Please complete the attached form and return it to school as soon as possible.

Medication is the responsibility of the parents/guardians to provide. The prescription label must be current with the student's name, dose, and how often the medication is to be administered. A medication authorization form must be provided with ***parent/guardian signature as well as the physician's signature***. We cannot accept or give medication without this.

Your student may carry an inhaler with them at school and on the bus with written permission from the physician who prescribed the medication along with the requirements stated above. The medication authorization form can be faxed to the following number: 812-678-3991.

If a student does not have written permission from their doctor to carry emergency medication with them, then the medication must be kept in the nurse's office with the requirements stated above.

If medication is required, please send as soon as possible with the above requirements.

Please contact me with any questions or concerns.

Thank you,

Ashley Mendez, RN, BSN

Northeast Dubois Corporation Nurse
