

College Entrance Exam Preparation Information

About the Program

Through our partnership with **Ray Dass Test Prep™**, students receive structured preparation for the PSAT, SAT, and ACT throughout their high school years. The program is designed to strengthen academic skills, build confidence, and help students perform at their highest potential on college entrance exams.

Program Features

- Preparation for the PSAT, SAT, and ACT
- National Merit Scholarship Program preparation
- Instruction in effective test-taking strategies
- Practice questions and skill-building activities
- Video-based lessons and supplemental learning resources
- Progress monitoring and accountability

Student Participation

All students in grades 8–11 participate in the program as part of the school's college readiness curriculum. Students may also choose to engage with additional resources independently for further practice and preparation.

A Note on Test-Optional Policies

While many colleges and universities have adopted test-optional policies, strong SAT and ACT scores may still strengthen a student's application and increase eligibility for merit-based scholarships.

Our Goal

Our goal is to equip students with the knowledge, skills, and confidence needed to navigate the college admissions process successfully and maximize future opportunities.
