

Supporting Student Success

Tahoe-Truckee Unified School District's (TTUSD) primary mission is to provide a high-quality education to approximately 4,000 local students. The District operates 10 schools across the Truckee, North Lake Tahoe, and West Shore communities, serving families residing in Nevada, Placer, and El Dorado counties. Multiple TTUSD schools have been recognized as a California Distinguished School, reflecting the district's strong academics, innovative programs, and success preparing students for college, careers, and beyond.

Local School Funding Set to Expire

Since 1989, local school parcel tax funding represents over 5% of the school district budget. This funding supplements funding from the State that only supports a basic education. Voter-approved parcel tax proceeds are used to fund efforts to attract and retain qualified and experienced teachers, maintain manageable class sizes, and support quality academic and job training programs that help prepare students for success in college and the workforce. This parcel tax funding will expire soon. If the funding does not continue, over \$5 million may need to be cut from the budget, which could lead to teacher layoffs, cuts to academic programs, and increased class sizes.

Renewing Local School Funding to Help Prevent Cuts

The TTUSD Board of Education has voted to place Measure P on the November 3, 2026, ballot, which would renew the current \$148 annual parcel tax rate and increase it by \$40 to account for inflation since the last renewal in 2018, for a total of \$188. Measure P would continue this funding for 9 years and provide approximately \$7 million annually in locally controlled school funding to:

Support programs in science, technology, engineering, and math

Attract and retain highly qualified teachers

Maintain career and technical education and job training programs for in-demand fields like health sciences and skilled trades

Maintain manageable class sizes

Local Control and Fiscal Provisions

Measure P would continue fiscal oversight and transparency provisions, including:

All money raised would stay local and would not be taken by the state or federal governments

An independent oversight committee, annual audits, and public spending disclosure would continue

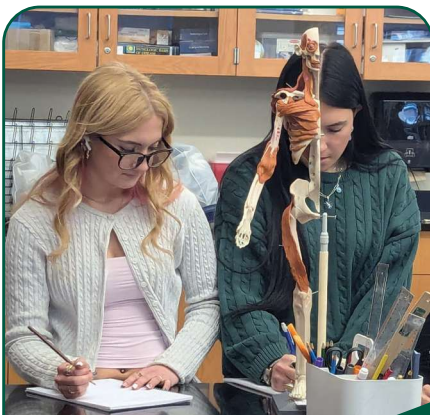

Funds could not be used for administrator salaries

Homeowners age 65 and older would continue to be eligible for an exemption and not need to reapply

Low-income homeowners with disabilities would be eligible for an exemption
