

SAN BERNARDINO COUNTY

Design for All:

Essential Accessibility Practices

No Fee

Accessibility is more than accommodations, it is about designing learning experiences that work better for everyone. In this interactive workshop, participants will challenge common misconceptions and explore how inclusive design can remove barriers, support learner success, and strengthen teaching.

Through real-world examples, discussion, and hands-on "fix it or redesign it" activities, participants will practice accessibility essentials for digital content and learning spaces, including structure, alternative text, color contrast, readable fonts, captions, assistive technology and inclusive classroom setup.

All participants will receive a copy of Design for All Learners: Create Accessible and Inclusive Learning Experiences.

September 23 and/or
September 24, 2026
8:30 a.m. - 3:00 p.m.
