

Welcome back, Knights!

We are thrilled to welcome our students and families to the 2026–2027 school year. The Bullard staff is energized and ready to guide your students to the next level of learning—while ensuring they enjoy the journey along the way. At Bullard High School, we are committed to creating a positive, enriching learning environment and providing access to extracurricular opportunities that help every student thrive. Our first day of school begins at 8:30 a.m. on August 17, 2026.

Although I am not new to Bullard, this being my first year as principal, I want to reaffirm my commitment to supporting every Knight. I look forward to partnering with families and our community to expand opportunities for students to achieve their personal goals. From our engaging, rigorous academic programs to our award-winning CTE Pathways, VAPA programs, and athletic offerings, Bullard truly has something for every student seeking a full and meaningful high school experience.

Clear and consistent communication is essential to ensuring your student's success. Important information—including school processes, deadlines, academic updates, extracurricular opportunities, and the many exciting events happening throughout the year—can be found on our school website, which is updated regularly. Our staff also uses Parent Square, Atlas-Connect, Edu-Text, and our social media platforms to keep families informed and connected.

We look forward to a year filled with growth, collaboration, and memorable experiences. We are excited to welcome new faces, reconnect with returning families, and continue building a strong, supportive Bullard community. Please be sure to join us for our Back to School Knight on August 31, 2026.

Together, let's make it an exceptional year.

Sincerely,

Alicia Jackson, Principal
