CODE BLUE AED Emergency EMERGENCY RESPONSE PLAN

CODE BLUE means there is an individual not responding to verbal comments or physical touch. The individual may not be breathing and is in need of immediate assistance.

Response AED Team Members are: *(List trained Staff)*

1. _____	5. _____	09. _____
2. _____	6. _____	10. _____
3. _____	7. _____	11. _____
4. _____	8. _____	12. _____

OUR PLAN

Person finding unresponsive individual designates someone near the victim to call 9-1-1.

Person finding victim informs office/administration: “There is a **CODE BLUE AED EMERGENCY** at *(location)*.” Also inform office/administration that 9-1-1 has been called.

The secretary announces on the PA system **twice**: “There is a **CODE BLUE AED EMERGENCY** at *(location)*.”

Anyone nearest to the AED should remove the AED from the cabinet and take to the victim’s location.

All other available AED Team Members report to the victim’s location.

First person on scene immediately starts hands-only CPR.

When AED arrives it is activated as per the audio/written instructions.

One or two individuals wait outside to direct EMS to the victim.

SCHOOLWIDE RESPONSE

All students remain in the classroom until there is an “all clear” announcement.

Students who are temporarily out of the classroom are to return immediately to their classroom

Cafeteria during the lunch periods and gymnasium during physical education classes are treated the same as classrooms.

This is an opportunity for the classroom teacher to explain the possible reason for the CODE BLUE, the importance of the defibrillator in the building and not tampering with it, and continue teaching
