July 10, 2026

To Parent Teacher & Employee Organizations:

The Somerset Hills Board of Education has contracted with EnviroVision Consultants Inc. to act as their Environmental Consultant with regards to the Asbestos Hazard Emergency Response Act (AHERA) of 1986. AHERA required that all educational facilities be inspected for asbestos – containing materials and develop a remedial plan of action on or before May 9, 1989. In addition, each educational facility shall reassess all identified asbestos – containing materials or materials assumed to be asbestos, at least once every six months (Periodic Surveillance) and re-inspect those facilities every three years (Tri-Annual Re-Inspection).

The Somerset Hills Board of Education is in compliance with these requirements. The most recent Tri-annual re-inspection was performed in March of 2025. Periodic surveillance inspections are performed every March and September, unless a Tri-Annual Re-Inspection is performed that year. The last “periodic surveillance” inspection was performed in March of 2026 with the next one scheduled for September 2026.

Following each inspection, appropriate remedial actions are recommended to the Board of Education by an accredited Asbestos Management Planner. The remedial plans of action and recommended schedules for implementation (Asbestos Management Plans) are available for review at the Somerset Hills Board of Education Administrative Office, as well as in each school office.

This past year there were no asbestos abatement projects. We will continue to keep you informed of any/all abatement efforts that are undertaken in the future.

We will continue to keep you informed of our AHERA compliance.

Cathy DiNardo

EnviroVision Consultants Inc.
Asbestos/Environmental Consultant on behalf
of the Somerset Hills Board of Education
