To Whom it May Concern:

The Career, Technical, Adult, and Community Education Department of Broward County Public Schools would like to express our sincere interest in building a meaningful partnership with your organization. As we continue our mission to prepare students for success in college, career, and life, we recognize that authentic, real-world learning experiences play a critical role in shaping their future. Your organization has the potential to make an extraordinary impact on our students by offering **opportunities for engagement, mentorship, and professional insight.**

Our department firmly believes that learning extends far beyond the walls of the classroom. When students engage with community partners, they gain unique perspectives that deepen their understanding of career pathways and open their eyes to what is possible. **Opportunities such as mentoring, guest speaking, job-shadowing, project collaboration, workplace tours, and other forms of engagement help students connect their academic learning to real careers and real people.** These interactions often become defining moments in a student's educational experience, sparking curiosity, building confidence, and inspiring long-term goals.

Your involvement would not only enrich the lives of our students but would also **strengthen the connection between education and the workforce, helping to develop a well-prepared talent pipeline** for our local community. The guidance, time, and expertise provided by partners like you offer value beyond measure. Many of our students would not have access to such meaningful experiences without the generosity and support of industry professionals who are willing to invest in their future. With your partnership, students gain access to tools, networks, and insights that help them develop the skills and mindset required for success in the ever-evolving world of work.

We are committed to building partnerships that are mutually beneficial, responsive to community needs, and supportive of long-term student achievement. Whether you can contribute through mentoring, speaking engagements, specialized workshops, collaborative projects, or other innovative forms of participation, we welcome your involvement and creativity. Our goal is to work alongside you to design experiences that align with your expertise and organizational values while meeting the needs of our diverse student population.

We would love the opportunity to begin a conversation about how we can collaborate to create meaningful and impactful experiences for our students. Our team is eager to discuss potential partnership ideas, share information about our programs, and explore ways to align your organization's strengths with the needs and goals of our students and teachers.

Thank you for considering this opportunity to influence, inspire, and empower the next generation. Your partnership has the potential to make a lasting difference not only in the lives of individual students but also in the broader community we collectively serve. We look forward to the possibility of partnering with you and would be delighted to continue this discussion at your convenience. For additional information, please contact Christie McGowen at Christie.McGowen@Browardschools.com.

Sincerely,

Loli Formoso
Director
