SUBJECT: 2025-2026 BCPS COGNIA SURVEY RESULTS

This memo summarizes the end-of-year Cognia survey results and participation for students, staff, and parents.

Key Findings:

- **Participation Rates Remained Strong but Slightly Declined for Some Groups:** In 2025-2026, response rates were highest among staff (71%) and elementary students (65%), followed by middle-high students (46%) and parents (19%).
- **Elementary Students Reported High Overall Satisfaction:** Elementary students rated their schools positively, especially in Equity and School Support. Lower-rated areas included cafeteria food, student voice, and peer respect.
- **Middle and High School Students Rated Safety Highest:** Middle and high school students rated Safety as the strongest domain, but cafeteria food, student respect, and school cleanliness remained lower-rated areas.
- **Staff Reported Strong School Support:** Staff responses were highly positive overall, with the strongest agreement related to students being able to come to staff for help. Cafeteria food was the lowest-rated item.
- **Parents Reported Positive School Experiences:** Parents were most positive about courteous office staff and respectful phone communication. The lowest-rated area was having a family resource center and/or an assigned staff member to support families.

Each year, the School Improvement Office administers the Broward County Public Schools (BCPS) Customer and Climate Surveys to gather student, staff, and parent perceptions on school climate, improvement, and customer service. Charter schools do not participate. Students in grades 3-5, 6-12, staff, and parents each complete a tailored version of the online Cognia survey for each group of stakeholders.

Survey results inform school improvement planning by linking Cognia Accreditation Standards to each school's School Improvement Plan (SIP). Schools use the data to identify activities to enhance their environment and services, share results with stakeholders at School Advisory Council (SAC) meetings, and receive annual training on survey administration and reporting.

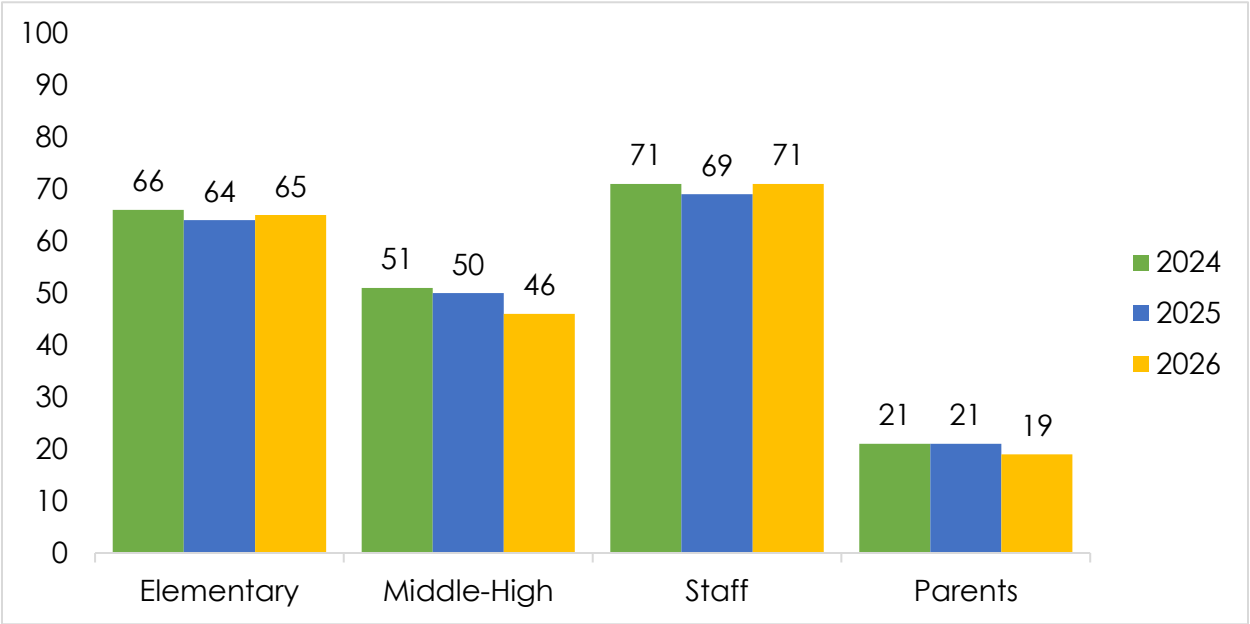

Participation

The number of elementary student (grades 3-5) responses in 2025-2026 was 25,890 out of a possible 39,874. The number of middle-high (grades 6-12) school student responses in 2025-2026 was 49,075 out of a possible 106,487. The number of staff responses in 2025-2026 was 12,274 out of a possible 17,299. The number of parent responses in 2025-2026 was 25,513 out of a possible 135,254.

The response rates for the 2025-2026 school year were 65% for elementary school students (grades 3-5), 46% for middle/high school students (grades 6-12), 71% for staff, and 19% for parents. Response rates for 2023-2024 through 2025-2026 are displayed in Figure 1 for comparison.

Figure 1

Cognia Survey Response Rate Percentages, 2023-2024 through 2025-2026

Results

In 2025-2026, BCPS administered the Cognia survey to gather perceptions of the school system from students, teachers, non-instructional staff, and parents. While each group received different questions, topics included safety, resources, wellness support, leadership accountability, family support, and student learning. Responses to positively worded Likert scale statements were scored by the percent who agreed or strongly agreed, with full item texts and district results provided in Appendix A. Multiple choice responses captured qualitative data, summarized in Appendix B. Schools are encouraged to explore their own data through the Cognia survey platform.

Positive Statements

Positive response rates on the Climate and Customer Survey reflect the percentage of participants who expressed favorable perceptions about their school's environment, services, and overall experience. Full results by domain and respondent group are provided in Appendices A and B. The following data highlights schools with the highest percentages of positive feedback, showcasing where stakeholders report the most satisfaction. The top three schools in terms of the percentage of positive responses by survey type are provided in Table 1. School-level data are provided in Appendix C.

*Note. The top three schools, in percent of positive responses, were chosen; percentages resulting in a school tie were also included. Traditional schools only, no centers or alternative education sites were included due to sample sizes. Additionally, schools were eligible if they met or exceeded the survey requirement goal and had more than 50 responses.

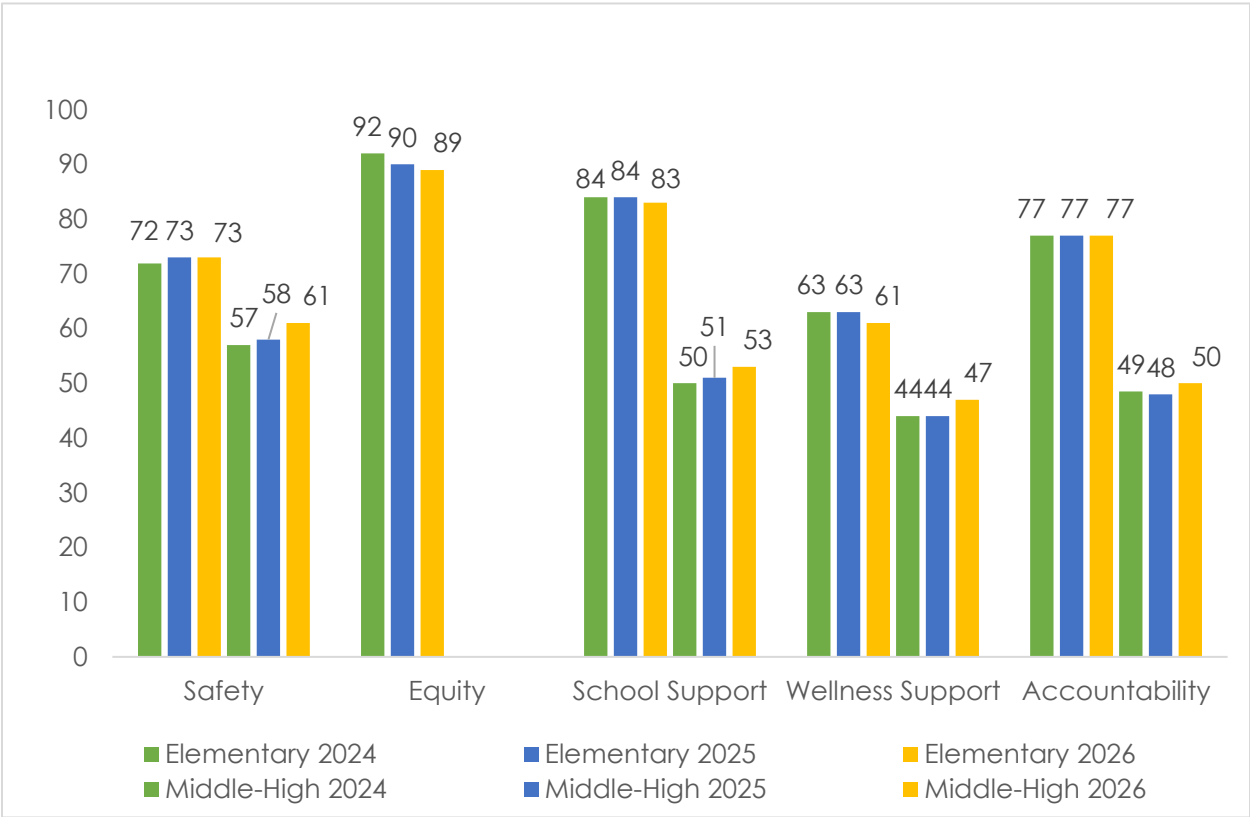

Elementary students reported high satisfaction with their school environment in 2025-2026, rating Equity and School Support the highest among five domains, with Safety and Accountability similarly rated. The top-rated statements were "My teachers want every student to learn" and "In my school, my teachers want me to do my best work." The lowest-rated items, all below 50% agreement, were "I enjoy eating food prepared by the cafeteria" (33%), "My teachers ask me what I think about school" (39%), and "In my school, students treat each other with respect" (47%). All other items exceeded 50% satisfaction.

Middle and high school students expressed moderate agreement overall, with Safety rated highest; 69% agreed with "I feel safe getting to and from school." The lowest-rated statements were "I enjoy food prepared by the cafeteria" (22%), "In my school, students treat each other with respect" (31%), and "My school is clean and well-maintained" (31%).

The graph in Figure 2 illustrates the percentage of agreement or strong agreement on each survey regarding positive statements made about each domain for Elementary School students and Middle-High School students. Figure 2 contains data for 2023-2024 through 2025-2026.

Figure 2

Average Percent Agreement within Each Domain for Elementary School and Middle-High School Students, 2023-2024 through 2025-2026

*Note. The Middle-High survey did not contain items in the Equity domain. As a result, the percentage of positive responses could not be calculated and reported.

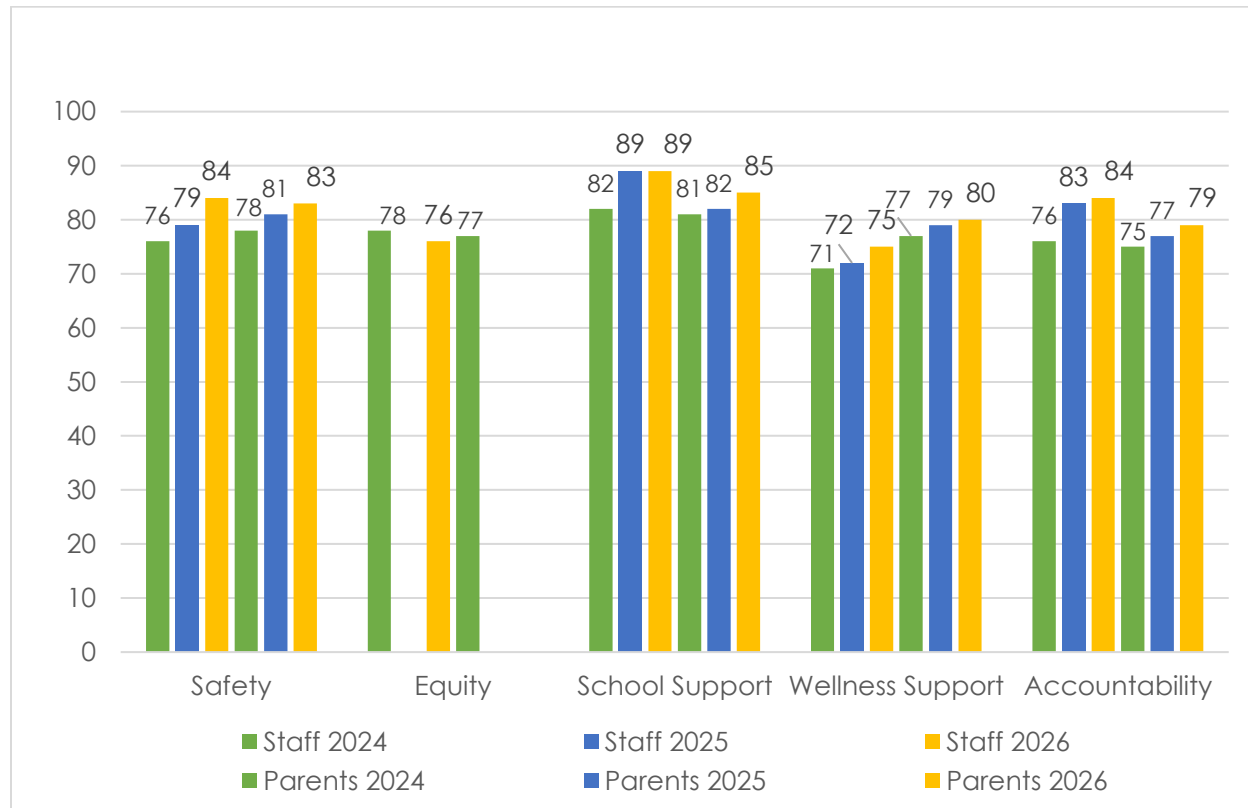

Instructional and non-instructional staff reported high satisfaction, with School Support rated highest. The most agreed-upon statement was "If students have a problem, they can come to me for help" (96%). The lowest rated was "I enjoy food prepared by the cafeteria" (26%).

Most parents expressed positive views of their child's school, especially in School Support. The highest-rated items were "When visiting the school, I am greeted with courtesy and respect by office staff" (88%) and "Phone calls to the school are answered in a polite and respectful manner by the office staff" (88%). The lowest-rated statement was "Our school has a family resource center and/or a staff member assigned to work with families" (55%).

The graph in Figure 3 illustrates the percentage of agreement or strong agreement on each survey regarding positive statements made about each domain for Staff and Parents. Figure 3 contains data for 2023-2024 through 2025-2026.

Figure 3

Average Percent Agreement within Each Domain for Staff and Parents, 2023-2024 through 2025-2026

*Note. The Staff and Parent surveys did not contain items in the Equity domain in 2024-2025 or 2025-2026. As a result, the percentage of positive responses was not calculated and reported.

Summary

Overall, the 2025-2026 Cognia survey results reflect strong satisfaction with the BCPS system, particularly among elementary students, staff, and parents, while middle and high school students reported moderate satisfaction. Elementary students rated equity the highest, middle and high school students rated safety the highest, and staff expressed consistently high satisfaction, especially with school support. Parents similarly reported high satisfaction with school support and safety as the top-rated areas. These largely positive results offer valuable insights to help the district further address the needs of students, staff, and families. Full results by domain and respondent group are provided in Appendices A and B. The next steps for principals should be to review their school's data to discuss at their next SAC meeting or use in their SIP.
