

Dear Durant High School Parent or Guardian,

Durant High School, in partnership with Murray State College (MSC), is offering the opportunity to earn an associate's degree by the time students graduate high school. In some classes, they may receive dual-credit and get credit for high school courses and college.

Please be aware that the MSC classes are real college - level courses; therefore, students will receive the grade earned for the class. It will be transcribed on the official high school AND college transcript. Please also be aware, as any college class, Durant High School does not have access to grades or attendance. Grades and attendance will be kept on the student's MSC Blackboard, which you will have access to through your child. In some instances, if students have fallen behind or not logged into the online classroom, they will be dropped by discretion of the professor. If a student needs to drop a class, withdraw, or has any problems, please see Mrs. Hall or Mrs. Moring.

Be advised if a student drops a class or withdraws in the middle of a semester, they will be required to pay fees. If a student fails to maintain a 2.0 GPA, they will not be allowed to return to MSC as a concurrent student, will have to withdraw from the ACE program, and will be expected to maintain a full-time schedule at DHS. They will also not receive any earned honors or distinctions at graduation.

This partnership between Durant High School and Murray State College covers the cost of both tuition and fees of your student to participate in the ACE program. The only costs you and your student will be out will be any book-related expenses for the classes your student is enrolled in.

I, _____, have read the above information and allow my student to participate in concurrent enrollment.

If ever there are any questions, comments, or concerns, please feel free to contact Caitlin Hall or Catey Moring at the high school. Thank you!
