

The AI Infused Classroom

by Holly Clark

In this hands-on workshop, discover how AI can streamline your workload and spark deeper thinking and learning. We'll start with practical tools to boost your productivity, freeing up time so you can focus on what matters most: your students.

Then we'll shift to the classroom, exploring how to use AI to nurture curiosity, support student voice, and build agency. You'll leave with strategies for using AI as a creative collaborator for both you and your students, and a fresh perspective on what's possible when technology truly serves learning.

All participants will receive a copy of Holly Clark's book, *The AI Infused Classroom*.
