STUDENT TEACHERS

COORDINATION WITH THE COLLEGE

The Superintendent or designee is authorized to negotiate and approve an agreement with a college or university to establish a student teacher program in the District.

The Superintendent or designee will coordinate with principals the institution's requests for placement of student teachers, to determine whether placements are possible in the grade levels or subject areas requested. The college supervisor will be notified of accepted placements.

ASSIGNMENTS

Assignments of student teachers will be made with the approval of the principal. No teacher in the District will be assigned a student teacher without giving consent and completing all supervisory training required by the college or university.

A student teacher may not be assigned to a teacher with fewer than three years of teaching experience unless authorized by the Executive Director of School Leadership.

A supervising teacher will not be assigned more than one student teacher per school year unless authorized by the Executive Director of School Leadership.

A supervising teacher will maintain responsibility for the class and will not delegate responsibilities until the student teacher has displayed the proficiency needed to accept responsibility.

A student teacher will assume the same working conditions as the supervising teacher, in terms of the length of workday, responsibilities for supervision of student activities, and requirements for attendance at staff meetings and professional learning sessions.

All student teachers will be required to consent to a criminal history background check.

Approved – May 2026
