

HealthHub Dental Clinic

HealthHUB is a nonprofit organization with a mission to improve access to healthcare. Our mobile Dental Hygiene facility, in collaboration with Gifford Health Care, will be visiting your school. Services provided include dental cleanings, oral evaluation, necessary x-rays, fluoride treatments, sealants, and silver diamine fluoride which can stop cavities. Students are eligible if they have NOT had their teeth cleaned within the last **6** months and/or are current patients in the program. They are **NOT** eligible if they already have a regular dentist outside of HealthHUB (feel free to call us if you aren't sure).

To sign you child/children up for dental services at the school please complete the dental enrollment forms:

Scan to Complete the Form

We are pleased to provide dental hygiene services to adult family members as well as your children. Adults are asked to contact HealthHUB directly at (802) 888-3384 for an appointment.

Thank you for giving your child the opportunity to maintain a healthy, happy smile for a lifetime of wellness!
