FOREWARD

St. Mary Parish Public Schools welcomes you to the 25-26 school year. We are pleased to provide you with this student-parent handbook *A Guide to St. Mary Parish Public Schools* compiled to inform students and parents of important information such as this year's calendar, district programs, student-related policies, and various procedures. To reach maximum academic achievement and learn social responsibility, we must work together to maintain safe, structured, and courteous learning environments. This document clearly outlines the expectations of acceptable behavior and defines the consequences for unacceptable behavior. For your convenience, you may also view this handbook on our website. This handbook refers to district-wide regulations. Each school will communicate school-specific procedures and rules to students and parents in school handbooks found on school websites. We encourage you to review these documents with your child and ensure his or her understanding of procedures and expected behaviors.

Parents, thank you in advance for your continued support.

Students, we wish you a school year filled with extraordinary learning experiences.

DISCLAIMER

ACADEMICS

St. Mary Parish Public Schools Pupil Progression Plan details how students at each grade level are graded, how final grades are determined, and how student are promoted from one grade to the next. This document also includes graduation pathways and outlines programs and needed assessments at each grade level. Here is a link to this document <https://www.stmaryk12.net/Page/16354>

HIGH SCHOOL PROMOTION AND TRANSITION CONSIDERATIONS

INSTRUCTIONAL MINUTES:

When awarding credit based on instructional time, LEAs shall provide a minimum of 7,965 instructional minutes for one Carnegie credit, and students shall be in attendance for a minimum of 7,515 minutes. To grant one-half Carnegie credit, LEAs shall provide a minimum of 3,983 instructional minutes, and students shall be in attendance for a minimum of 3,758 minutes.

INDIVIDUAL GRADUATION PLANNING:

By the end of the eighth grade, every student (with the assistance of his parent or other legal custodian and school guidance personnel, counselor) or IEP team (when applicable) shall begin to develop an IGP. An IGP guides the next academic year's coursework, assisting students in exploring educational and career possibilities and in making appropriate secondary and postsecondary education decisions as part of an overall career/post-secondary plan.

FINANCIAL AID PLANNING:

The linked memorandum outlines the updated Free Application for Federal Student Aid (FAFSA) policy BESE approved at its March 2024 meeting, a repeal of the policy requiring graduating seniors to complete steps related to the FAFSA application. This policy change will be effective starting with the graduation cohort of 2024-2025 and does not remove the requirement of LEAs to provide students and their parents or guardians with information regarding financial aid programs to support post-secondary education and training. LEAs must ensure that each student receives adequate support in completing and submitting an application for financial aid. However, a student action related to FAFSA completion will not be required. An updated parent and student financial aid planning toolkit will be made available to school systems. Please contact ldefinancialaid@la.gov with questions.

CREDIT RECOVERY COURSES AND UNITS

1. Beginning in 2020-2021, the LEA credit recovery program and policy will be included in the local PPP submitted to LDOE.
2. Students may earn a maximum of seven credit recovery units that may be applied towards diploma graduation requirements and no more than two Carnegie units annually. The school system must annually report to LDOE the rationale for any student:
 - i. receiving more than two credit recovery credits annually; and/or
 - ii. applying more than seven total credit recovery Carnegie units towards graduation requirements
3. Students earning Carnegie credits in a credit recovery course must have previously taken and failed in the field. Previously attempted coursework is considered an academic record and must be recorded on the official transcript
4. Completed credit recovery courses must be recorded and clearly labeled on the official transcript.
5. Students enrolled in credit recovery courses are not required to meet the instructional minute requirements found in §333.A of this Part.

6. Credit recovery courses must be aligned with state content standards and include a standards aligned pre-assessment to identify unfinished learning and a standards aligned post-assessment to demonstrate course proficiency for content identified as non-proficient.
7. Credit recovery courses taught in a classroom setting using online courses designed for credit recovery must have an assigned certified Louisiana teacher of record or certified teacher of record recognized through a state reciprocity agreement facilitating the instruction.
8. The end-of-course exam weight in a student's final grade determined by the LEA must be the same for a traditional course and a credit recovery course. Students who have previously passed the end-of-course exam, but have failed the course, may choose to retain the previous end-of-course exam score in lieu of participating in an additional administration of the exam.

UNIFORM GRADING POLICY

LEAs shall use the following uniform grading system for students enrolled in all grades K-12 for which letter grades are used.

GRADING SCALE FOR REGULAR COURSES

GRADE	PERCENTAGE
A	100-90
B	89-80
C	79-70
D	69-60
F	59-0

The Honors Grading System will be used for evaluative and reporting purposes in the following courses: All courses designated as Honors and Dual Enrollment as well as Advanced Math, Foreign Languages, Calculus, Trigonometry, English for the College-Bound, Freshmen Basic Composition, Advanced Composition, Biology II, Chemistry II, Physics, and Computer Science. Annually, courses may be added or removed based on the offerings of the district.

HONORS GRADING SCALE

GRADE	PERCENTAGE
A	100-90
B	89-80
C	79-70
D	69-60
F	59-0

Dual enrollment course grades will be derived from assignments, assessments, and exams listed on the university course syllabi. DE instructors will provide university course syllabi on the first day of the university course. There are some DE courses that are designated by the Louisiana Department of Education as 5-point courses. If that is the case, the course will be factored on a 5-point quality point scale (A=5, B=4, C=3, D=2, F=0).

INSTRUCTIONAL MATERIALS REVIEW REQUESTS (IFA)

In compliance with Louisiana R.S. 17:355, parents in St. Mary Parish Public Schools have the right to request a review of instructional materials such as textbooks, novels, digital resources, or supplemental lessons, etc. This law is designed to promote transparency, support parent engagement, and ensure that classroom materials meet state standards and community expectations. The request form and review procedures are located under the curriculum tab on the district website.

ATHLETICS (IDFA)

Competitive interscholastic athletic programs are a part of the overall educational programs at each school. Athletic programs within the school district shall comply fully with regulations of the *Louisiana High School Athletic Association (LHSAA)* and policies of the School Board. Students are allowed to participate in as many sports activities and academic activities as he/she is capable. Each Junior High and High School offers various athletic programs.

PARTICIPATION OF STUDENTS IN HOME STUDY (HOMESCHOOL) PROGRAMS (IDCH)

A public school shall not disqualify a student from participating in interscholastic athletics solely because the student is enrolled in an approved home study program so long as the student lives in the attendance zone of the public school and meets the qualifications as detailed in Policy IDCH—Home Study Program. The student must also meet all eligibility requirements mandated by the Louisiana High School Athletics Association (LHSAA). The student's parents or legal guardian shall make a written request for the student to participate in interscholastic athletic activities with the principal of the school providing the activity. Such a request shall be made no later than the first 11 days of the school year. All eligibility requirements are applicable and can be found in the LHSAA handbook at this link <https://online.flippingbook.com/view/388033565/32/>.

ATHLETIC-CHEER-DANCE TEAM DRUG TESTING (IDFAA)

Drug testing procedures help achieve maximum protection of participants by allowing students to participate safely, fairly, and competitively. The effects of drug use by athletes, cheerleaders, and dancers increase the risk of sport-related injury and disrupts the educational process. The School Board authorizes random use of breathalyzer and urinalysis drug testing for students who participate in high-school athletic, cheerleader, and dance programs. Drug testing is mandatory for participation.

- Upon the first positive, the student must test negative before being allowed to resume participation and will be tested monthly for the remainder of the school year.
- Upon the second positive in the same year, the student shall be immediately dismissed from his/her activity and shall be ineligible for participation in any of the school's interscholastic athletics, cheer, or dance team for a period of 12 months.
- After a third positive in an eight-semester period, the student shall be terminated from interscholastic athletics, cheer, and dance team for the remainder of their time in high school.

ATHLETIC OPPORTUNITIES

- ALL LHSAA ELIGIBILITY (<https://online.flippingbook.com/view/923623804/>) RULES APPLY!
 - Baseball • Cheerleaders
 - Basketball • Bowling
 - Football • Powerlifting
 - Track • Softball
 - Volleyball • Golden Dolls Dance
 - Fishing

ATTENDANCE (JB) AND LATE-TO-SCHOOL TARDIES (JBD)

Louisiana's compulsory attendance laws require 5-year-olds (by September 30th) to enter kindergarten and attend school until they graduate or turn 18. If a child enrolls into SMP later than mandated without evidence of having attended any other instructional program, the Office of Child Welfare and Attendance must refer the parent to the proper court.

Students are expected to attend school regularly and to be on time. Students who have excessive unexcused absences or late-to-school tardies are considered truant. This section is a summary of these policies. For additional information, see Policies JB and JBD in the SMP Policy Manual on the district website.

Louisiana R.S.17:233

§233. Cases of habitual absence or tardiness referred to juvenile or family court; denial or suspension of driving privileges; parental responsibilities

A. Any student who is a juvenile and who is habitually absent from school or is habitually tardy shall be reported by visiting teachers and supervisors of child welfare and attendance to the family or juvenile court of the parish or city as a truant child, pursuant to the provisions of Chapter 2 of Title VII of the Louisiana Children's Code relative to families in need of services, there to be dealt with in such manner as the court may determine, either by placing the truant in a home or in a public or private institution where school may be provided for the child, or otherwise.

B.(1)(a) A student shall be considered habitually absent or habitually tardy when either condition continues to exist after all reasonable efforts by any school personnel, truancy officer, or other law enforcement personnel have failed to correct the condition after the fifth unexcused absence or fifth unexcused occurrence of being tardy within any school semester.

(b)(i) The parent or legal guardian of a student shall enforce the attendance of the student at the school to which the student is assigned. The parent or legal guardian of a truant student shall ensure that the student makes up missed school work by attending after-school tutoring sessions, weekend make-up classes, or other remediation opportunities, as determined by the school board until the student has caught up with his school work. The parent shall also attend meetings at the school on at least a monthly basis relative to the student's progress until the student has caught up on his missed school work and any assistance fair conducted by the school district that provides information on supports available to families. Failure to comply with the provisions of this Item may subject a parent to the penalties provided in R.S. 14:92.2.

(ii) The principal of each school or his designee shall note any concerns that school personnel have relative to a child's school attendance on the back of any Supplemental Security Income form that the school receives relative to that child.

(c) The principal of the school, or his designee, shall notify the parent or legal guardian in writing on or before a student's third unexcused absence or unexcused occurrence of being tardy, and shall hold a conference with such student's parent or legal guardian. This notification shall include information relative to the parent or legal guardian's legal responsibility to enforce the student's attendance at school and the civil penalties that may be incurred if the student is determined to be habitually absent or habitually tardy. The student's parent or legal guardian shall sign a receipt for such notification.

(d) The parent or legal guardian of any student in kindergarten through grade eight who is considered habitually absent or habitually tardy pursuant to the provisions of this Section shall be in violation of the provisions of Subparagraph (b) of this Paragraph and shall be punished as follows:

(i) A first offense shall be punishable by a fine of not more than fifty dollars or the performance of not less than twenty-five hours of community service.

(ii) Any subsequent offense shall be punishable in accordance with R.S. 17:221(A)(2).

(iii) For purposes of this Subparagraph, an offense means a violation of this Subsection by the parent or legal guardian of a child who is habitually absent or habitually tardy; multiple offenses may result from violations involving different habitually absent or tardy children of that parent or legal guardian.

(iv) In any case where the child is the subject of a court ordered custody or visitation plan, the parent or legal guardian who is lawfully exercising actual physical custody or visitation of the child shall be responsible for the child's attendance at school on those days and shall be solely responsible for any absence or tardiness of the child on such days. The parent or legal guardian not exercising actual physical custody or visitation on the day of the absence or tardiness shall not be in violation of this Section.

(2) In a nonpublic school, a student shall be considered habitually absent or tardy only when the student has been absent or tardy for more than five days within any month without approval of the parent or other person responsible for the student's school attendance and when the student's principal has filed a written report showing dates of absence or tardiness and dates and results of school contacts with the home.

C. If a student is less than eighteen years of age and is habitually absent or tardy as determined pursuant to this Section, the Department of Public Safety and Corrections may, upon notification from the school board, deny or suspend the driver's permit or license of the student in accordance with the provisions of R.S. 32:431.1.

D. For purposes of this Section, the term "tardy" shall include but not be limited to leaving or checking out of school unexcused prior to the regularly scheduled dismissal time at the end of the school day but shall not include reporting late to class when transferring from one class to another during the school day.

Acts 1990, No. 158, §2, eff. July 1, 1990; Acts 1994, 3rd Ex. Sess., No. 103, §1, eff. July 7, 1994; Acts 2008, No. 688, §1, June 1, 2009; Acts 2009, No. 224, §6, eff. June 1, 2009; Acts 2009, No. 305, §1; Acts 2010, No. 644, §1, eff. June 29, 2010; Acts 2024, No. 386, §1.

RESPONSIBILITIES OF PARENT/LEGAL GUARDIANS (JBE)

Parents/legal guardians shall enforce school attendance for their child. Until the student has caught up with his or her schoolwork, the parent/legal guardian shall ensure that the student completes missed schoolwork by attending after school tutoring sessions, weekend make-up classes, or other remediation opportunities, as determined by the School District. The parents/legal guardians shall also attend meetings at the school on at least a monthly basis relative to the student’s progress until the student has caught up on his or her missed schoolwork and until instructional time has been recovered. The principal or designee of each school shall note any concerns that school personnel have relative to a child’s school attendance on Supplemental Security Income forms that the school receives relative to that child.

ATTENDANCE & STUDENT DRIVERS (JBH)

- Driving to school is a privilege, and principals have the authority to revoke this privilege from students who are habitually late for school (5 or more LTS Tardies).
- A student who does not meet the required minimum school attendance provisions may be subject to denial or suspension of his/her driver’s license or learner’s permit. It is the policy of the St. Mary Parish School Board to provide written notification of a minor student determined to be habitually absent or late for school to the Louisiana Office of Motor Vehicles for denial or suspension of driving privileges (Louisiana RS 32:431).

EXCUSED ABSENCES

Absences may be excused with proper documentation issued by a physician, dentist, mental health professional, board-certified behavior analyst, or court. When a student is out sick, written notes submitted by a parent/legal guardian will be accepted as proper documentation. Parent notes will excuse no more than five sick days in a school year. A student may be absent for up to three days in any school year related to the student’s mental or behavioral health, and such absences shall be excused with written notes submitted by a parent/legal guardian. Following the second day of a mental or behavioral health absence in any school year, the student shall be referred to the appropriate school support personnel for help addressing the underlying issue, which may include a referral to medical services outside of the school setting.

Documentation must be submitted within five days of the student’s return to school. All documentation submitted is subject to review by school administration. Any parent/legal guardian submitting falsified documentation will be referred to the proper court. Any student submitting falsified documentation will be disciplined according to the SMP Discipline Matrix.

UNEXCUSED ABSENCES

Excessive unexcused absences result in failure and truancy support measures.

- Students in grades K-8 who accumulate more than 10 unexcused absences will not be promoted to the next grade (unless the student completes the expanded academic supports outlined in the St. Mary Parish Public Schools Pupil Progression Plan).
- High-school students on block schedule who accumulate more than 6 unexcused absences within a course fail the course.

DISTRICT TRUANCY SUPPORT PANEL

The Truancy Support Panel supports schools and families with available interventions to prevent students from becoming truant. JTexts and emails go out daily from the district notifying parents and students of unexcused absences on absence 3, 5, 10, and 10+. Upon 7 unexcused absences, a truancy hearing with TSP is scheduled. At the hearing, parents/legal guardians are given the opportunity to explain the excessive unexcused absences. TSP will also review school truancy interventions, discuss the Family Truancy Agreement, review Compulsory Attendance and Truancy Laws of Louisiana, and provide parents and students with signed copies of each. Non-attendance failure and attendance requirements for grade promotion or course credit will be discussed as well.

Classroom teachers participate in the screening process as well. If a student is found to be at risk, parents will be notified, and concerns will be discussed. The SMP Board has adopted several programs to fulfill the mandates of this law and criteria for instruction. Title I funds may be used for supplementary instructional activities, specialized personnel, materials, and equipment in schools attended by significant numbers of economically disadvantaged children who need assistance and support. Each school receiving Title I services has a schoolwide plan outlining specific use of funds to help children meet performance standards. The Title I program has also established pre-kindergarten classes for children who demonstrate an academic need for preschool experiences and live within the attendance area of a Title I school. Additionally, Title I provides in-school tutoring, health services, media center support, and professional development opportunities.

TITLE II

The purpose of Title II, Part A is to increase student academic achievement through improved educator and leader quality by providing opportunities for continuous professional development and certification enhancements.

The principal will call 911 if the extent of an illness or injury requires immediate emergency care or if the principal is unable to locate a parent, legal guardian, or listed emergency contact. If EMS personnel deem it necessary to transport the

student to a medical facility, school personnel will accompany the student in the absence of the parent, legal guardian, or emergency contact. Parents or legal guardians assume the financial costs of treatment and transport.

IMMUNIZATION

All student immunization records will be checked through the Louisiana Immunization Network System (LINKS). Student vaccines should follow the recommended schedule of immunizations by age; accelerated schedule for students with late vaccines; or the required vaccination for entry into daycare and schools. *See the state health vaccine record for students entering school at the following website under the document center immunization schedule:* <https://lalinks.org/linksweb/>

MEDICAID

The district will distribute consent forms to parents and legal guardians to obtain permission to file for services with Medicaid. The district also requests parental consent to disclose the child's personal identifiable information (full name, address, date of birth, and Medicaid ID) to the Medicaid Program to bill for services. Billing for these services will not impact the child's Medicaid limits for any other services billed by a private provider. Your consent simply provides the school system with the important funding needed to enhance the services available to students. Parents may withdraw consent in writing at any time. If parents refuse or withdraw consent to allow access to Medicaid benefits, the school system will remain responsible for conducting scheduled services and screening.

MEDICATION (JDCD)

Administering medications during school hours is for long-term use not short-term use. Parents should contact the school nurse for forms and an appointment to arrange for services. The parent will provide the nurse with the written consents to accept and administer medication with orders from the physician detailing the name of the drug, dosage, and time interval medication is required. Any change to the initial order will require new doctor orders and an additional conference. The parent or legal guardian shall not send medication to school with the child.

HOMELESS CHILDREN & YOUTH EDUCATION PROGRAM (JBCBB)

SMP carries out federally mandated policies to ensure that homeless children and youth have access to a free, appropriate public education. Board policies and district practices should not act as barriers to the enrollment, attendance, or success of homeless students who lack a regular, fixed, adequate night-time residence.

THE MCKINNEY-VENTO ACT

The McKinney-Vento Act protects the educational rights of children and youth living in shelters, including domestic violence shelters, hotels, motels, or weekly-rate apartments. The act also protects the educational rights of Children living in conditions not fit for human habitation (i.e., no electricity, no heat, no running water, no windows or doors, holes in the roof or floor, no way to cook or store food.) Abandoned, runaway, throwaway children and youth (unaccompanied Youth) are protected as well. They have the right to remain enrolled despite changes in residence, to obtain immediate access to school enrollment without proof of residency, immunization, or school records. Parents will have 5 school days to submit enrollment documentation (i.e., physical address, academic records from last school attended, immunization records and birth certificate). Students are provided with transportation to and from school. They shall also be enrolled in pre-school programs.

HOSPITAL & HOMEBOUND SERVICES (IDDC)

Hospital-Homebound services are available to eligible SMP students who have a physical illness, accident, emotional crisis, or the treatment thereof and who cannot be moved from the hospital or home environment for at least 10 school days. To request services, the child's parent must contact the school's SBLC Facilitator and request a *Homebound Medical Form* to be completed by the physician.

CRITERIA FOR ELIGIBILITY

There must be certification by a physician that the student is expected to be home or hospitalized for at least 10 operational days and is able to participate in an instructional program. The student must be under constant medical care for illness or injury which is acute or catastrophic or chronic physical condition which has acute phases, and which requires homebound instruction during the acute phases. The student must be free of infectious or communicable diseases. If the student is not free of such diseases, other

appropriate instructional arrangements must be made. The parent or legal guardian must sign a parental agreement to parental cooperation and to cooperation with homebound or hospital policies.

DETERMINATION OF ELIGIBILITY

Upon receipt of the completed *Homebound Medical Form* by the physician, the school's SBLC meeting will determine the best plan to provide F.A.P.E. to the student. The school nurse is a mandated member of this SBLC committee. SBLC will discuss possible accommodations or modifications to the child's schedule or setting to attempt to keep the child in school. This could include arranging the student's schedule to accommodate the illness or injury, having all classes downstairs if mobility is affected, sending work home to be completed, or attending school for part of the day or week, etc. All attempts should be made to return the student to the school setting as soon as possible.

If it is determined that hospital-homebound services are necessary, and all criteria are met, appropriate district and school personnel will confer, and the student's parents or legal guardians will be contacted by the assigned homebound instructor. Homebound instructors are assigned according to their professional certifications and the instructional needs of the child. Should the family be unwilling to accept the assigned instructor, the St. Mary Parish School Board shall not be responsible for providing this service.

ABSENCES PRIOR TO DETERMINATION

A student is counted absent until receipt of notice of eligibility. This official notice will come from the Coordinator of Discipline & Special Instructional Services and will include two pertinent dates—the date from which excused absences begin, noted on the *Medical Form* completed by the physician and the date from which the student is to be counted present. Absences incurred prior to these two official dates are addressed between the parent and the principal.

HOME ENVIRONMENT

An adult family member shall be on the premises and available during the entire instructional session, and ALL parties in the home should be appropriately dressed throughout the session. The student and the teacher shall be provided with an environment conducive to instruction free from distractions and spacious enough to accommodate the pupil and the teacher in accordance with the pupil's physical and mental involvement. The parent or adult family member present will initial the time sheet to document services. Hospital-Homebound teachers do not administer mid-terms, finals, or state assessments in the home. These tests are to be taken at school. Medical verification of the student's inability to take state assessments at school must be presented to the principal.

PARTICIPATION IN SCHOOL ACTIVITIES

Homebound students may not participate in school-sponsored events without a full medical release from their physician. Students present at school-sponsored activities or other public events will receive a case review with termination of services possible. Exceptions for students with long-term services may be requested by submitting a doctor's written request to the Superintendent.

PREGNANCY

Hospital-Homebound services begin on the actual delivery date or upon medical documentation of complications in the pregnancy or recovery which could be detrimental to the health of the student. Feeling tired, uncomfortable, and hurting to walk are all symptoms of pregnancy and not medical complications. Upon delivery of the baby, a parent or legal guardian must notify the school secretary to initiate services. The inability to secure childcare will not qualify the student for homebound services.

SPED OR 504 STUDENTS

An IEP or IAP meeting is required to address this "change of placement" in a short-term IEP or IAP written by the hospital-homebound teacher with input from the student's primary care provider. The IEP or IAP will be revised by the special education teacher upon the student's return to school. Students in grades 6-12, who are academically capable, will be placed in courses via Edgenuity. The homebound teacher will collaborate with the school counselor, primary provider, or 504 facilitator to assist the student at least once a week. The contact person must document contact dates and times using the *Homebound Contact Form*.

INSURANCE (JGA)

All junior and senior high students participating in interscholastic sports, athletics, band, cheerleading, J.R.O.T.C., or dance team are covered by a secondary insurance policy (Athletic Policy). A secondary policy is one that is used after the primary (your family coverage) policy reaches its maximum or is nonexistent. This school policy is paid for by the School Board. The policy covers the student while traveling to and from a school-related event, regardless of the means of transportation, and while participating in any school sponsored or supervised activity. The coach or sponsor should complete an accident report form as soon as possible after an accident or injury occurs and forward it to the school office no later than the following school day. LOUISIANA CHILDREN'S HEALTH INSURANCE PROGRAM (LACHIP). Many households may not have health insurance for their children. Louisiana Children's Health Insurance Program (LaCHIP) is available. A fact sheet on LaCHIP will be given to all students so that households may have the opportunity to find out more information about this program.

INTERNET AND DEVICE USE (IFBGA)

To comply with the Children's Internet Protection Act, the Board has adopted a policy for internet safety that incorporates the use of technologies designed to block or filter internet access for students; however, it is difficult to catalog all controversial or inappropriate content. The Board has established guidelines so that device and internet users are aware of the responsibilities they are about to assume. Each device or internet user shall be responsible for his/her activities. Use of the district network and devices is a privilege, not a right. District personnel conduct routine monitoring of the system and can track student navigation on the Internet. No information on the network is guaranteed to be private. This includes correspondence sent through district email. Students will receive a copy of the *Internet and Device Student Use Agreement* on the first day of school to be signed by the student and parent/legal guardian. Inappropriate use will result in disciplinary action according to the SMP Discipline Matrix at the end of this handbook.

MENTAL HEALTH SCREENINGS (JGCF)

Louisiana R.S. 17:173.1 and 17:416.24 require public schools to make available mental health assessments to all students in grades 3 through 12, provided that the student's parent/legal guardian gives annual written authorization. Parents who wish to have their children screened shall be provided with a list of licensed mental health professionals who are authorized to conduct such assessments. To request this list, parents should contact the district's Behavioral Interventionist. The assessment is conducted by the licensed behavioral health provider at no cost to the local school board. The school principal shall have discretion over scheduling and location of the screenings. At the end of each school year, each school must report to the Louisiana Department of Education the number of screenings administered at each grade level.

MIGRANT EDUCATION

The goal of the Louisiana Migrant Education Program (MEP) is to ensure that all migratory students reach challenging academic standards and graduate with a high school diploma (or obtain a high school equivalency) that prepares them for responsible citizenship, further learning, and productive employment. The program works to ensure that migratory children fully benefit from the same public education provided to other children and that they master the educational content provided by local school districts. The program offers services to help reduce educational disruptions and other problems that can result from multiple moves.

PARENT-FAMILY ENGAGEMENT (IFD)

Parents and families are vital partners in the education of children; therefore, parental involvement is a priority of the school district. The concept of parent and family engagement shall include programs, services, and/or activities on the school site, as well as contributions of parents outside the normal school setting. Positive, productive, cooperative efforts by educators and parents are designed to impact a student's success at school. Parents have the right and the responsibility to be involved in the planning, review, evaluation, and improvement of district policy. Parents of students at all schools will be asked to enter into a school-parent compact agreement where responsibilities of all stakeholders are outlined in supporting improved student achievement. The compact describes the school's responsibility to provide a high-quality curriculum and instruction in a supportive and effective learning environment. It also describes the way in which parents will be responsible for supporting their children's learning and ways parents may volunteer and participate in decisions relating to the education of their children. Issues of open communication between parents and teachers are also addressed in the

compact. The district has developed the Parent and Family Engagement Policy Section in collaboration with parents. This policy serves as the basis for parent and family engagement. Each school year a meeting of a district parental advisory committee will be convened to review and update this policy. Membership of this advisory committee will consist of representation of parents of students from the various subgroups identified in Every Student Succeeds Act (ESSA) and who participate in various programs conducted in the district schools. A district-wide parental and community advisory approach will gauge the extent to which parish parental involvement strategies have been implemented. This approach will also be a means to develop future action plans.

Title I programming facilitates a positive interaction between parents and schools. The goal is for parents to be involved in their child's education to remove barriers to student success, reinforce the efforts of the school, improve attendance, collaborate on school-based interventions, and improve the integration of community-based agencies. Parents are provided with a variety of opportunities to get to know their school, its programs, and the staff. The federal grant also provides for workshops and literature that help support parents in ensuring the success of their children. Emphasis is placed on forming a home-school partnership to benefit the students and all those involved in their welfare. The staff recognizes the parents' right and responsibility to be involved in the planning, review, evaluation, and improvement of our Title I programs. We, therefore, invite parents to assist in planning activities that will accomplish program objectives.

PRESCHOOL PARENTS

The district coordinates and expends funds to ensure that the parents of preschool students are offered the same types of opportunities for parent and family engagement as other parents of students in the school system. Parents are involved through the initial interview enrollment process, parent-teacher conferences, make-and-take workshops, open house, and activities in the classroom. A schedule of transition is initiated annually to ensure that an appropriate schedule of activities takes place between public school preschool programs, Head Start programs, and the public Kindergarten settings.

PARENT BILL OF RIGHTS (IFDA)

To read the Parents' Bill of Rights for Public Schools (Act 466), please use this link <https://legis.la.gov/Legis/Law.aspx?d=920005> to access R.S. 17:354.

PARENTAL RIGHTS AND RESPONSIBILITIES (IFDA)

Parents have the right to have their children educated in a safe, orderly public school that is conducive to learning. Parents have the right to be informed of board policies and regulations, school rules, and the procedure for addressing grievances. Furthermore, they have the right to participate in educational decisions concerning their children. Louisiana Law (R.S. 17:235.2) further states that parents or legal guardians are responsible for:

- Ensuring that his or her child attend school every day except for reasons due to illness or other legal exceptions.
- Ensuring that his or her child arrives at school on time each day and/or for each class.
- Ensuring that his or her child completes all required homework assignments.
- Attending all required parent/legal guardian and teacher or parent/legal guardian and principal conferences.
- Providing the school with documents verifying residency and school zone as required by law.

PARENT-TEACHER COMMUNICATION

SMP encourages consistent communications between school and home. At the beginning of the school year, each principal will establish and communicate to families the guidelines for parental communication with teachers. Teacher office hours (preparation period) will also be established at the school level. Phone calls or emails sent outside of this established time will be returned the next school day.

PARENT-STUDENT PROGRESS CENTER

SMP parents and legal guardians may review their child's information through the JCampus Student Progress Center. Parents and legal guardians should create an account using this link <https://www.stmaryk12.net/Page/8153> to be able access student attendance, grades, and communications from the school or district.

SAFE AND DRUG-FREE SCHOOLS (IDBB)

The Safe and Drug-Free Schools Program is centered around education as a preventative measure. SMP partners with stakeholders from government entities, families, law enforcement agencies, community leaders, healthcare providers, and schools working together to promote safe and healthy choices for all SMP students. Students benefit from a safe and drug-free curriculum which includes anti-drug education, comprehensive health education, Red Ribbon Week activities, social emotional learning activities, the PBIS program, and the FUTURES PROJECT for 5th grade students. The Safe and Drug-Free Schools program also includes education on suicide prevention, bullying prevention, and crisis response.

SAFETY DRILLS (EBBC)

Throughout the school year, your child will be trained in emergency procedures and will be taught how to react, where to assemble, and what to expect in an emergency. This will be accomplished through fire drills, severe weather drills, and lock-down drills. While it can be unsettling to think about situations that require an emergency response, frequent review and practice will help to reduce risk and help both staff and students prepare for an actual event. Following an emergency scenario practice drill, your child may wish to share their experience with you. If so, this would be an excellent time to review the information and procedures as a family.

SPECIAL EDUCATION SERVICES (IDDF)

The district provides Free, Appropriate Public Education (FAPE) for all exceptional children residing within St. Mary Parish. Through the Child Find Program, the district continues to place a priority on locating, evaluating, and placing eligible exceptional children. In cooperation with other public agencies SMP tries to identify, locate, and evaluate children who may have a disability and need special education services. The district also tries to identify children who may qualify for gifted academic educational services or talented educational services in visual arts, music, or theatre. The district's special education services are extended to children in SMP public schools, private schools, public and private preschool, daycare programs, and students not yet enrolled in a school or program.

Special Educational Services are offered to exceptional children, birth through 21, with special needs, including learning disabilities, hearing, speech, language, or visual impairments, autism, developmental delays, other health impairments, or emotional challenges, etc. Services include speech therapy, adapted physical education, preschool classes, infant home-based supports, physical therapy, occupational therapy, extended school year, etc. Other special educational services include the surrogate parent program, Child Find, Special Olympics, Very Special Arts, community-based instruction, transition teams, and various assistive-technologies, etc. Program models include self-contained classes, combination classes, and resource room services.

CAMERAS IN SPECIAL EDUCATION CLASSROOMS (IDDCFC)

The SMP School Board shall install and operate cameras that record both video and audio in each special education classroom. Classroom here is defined as a self-contained classroom or other special education setting where students spend 50% of their instructional day. To access the video request form and read the entire policy and all procedures, see Policy IDDCFC in the SMP Policy Manual found on the district website.

COMMUNITY-BASED INSTRUCTION

Community-based instruction is provided to significantly disabled secondary special education students. Developmentally age-appropriate vocational classroom activities provide adaptive, hands-on vocational and functional experiences to facilitate successful post-school outcomes. In accordance with IEP goals and objectives applied in the community, the design of community-based instruction provides a model of work-based learning opportunities for students across various environments.

DUE PROCESS (IEE)

Federal law requires that parents be given notice before the school identifies, evaluates, places, or designs a program for any child requiring special education services. An evaluation cannot begin without the parent's or legal guardian's written consent. Parents can refuse to have their child evaluated. If the parent or legal guardian consents to an evaluation, the findings must be explained to the parents. If they disagree with the findings, they may request an Independent Educational Evaluation. Before placement in a special education program, an IEP-Placement meeting must be held to write the Individualized Educational Program for the child. The parent or legal guardian is a participant in this meeting. This is a summary of due process procedures. Additional information is given to all parents or legal guardians who give permission for their child to be evaluated.

EVALUATION

If a child has difficulties in school (behavior, academics, communication, medical needs, etc.), the parent or teacher may request a School Building Level Committee (SBLC) meeting. SBLC is a general education, data-driven, decision-making committee. Members include the child's classroom teacher, a parent or legal guardian, an administrator, the school's SBLC facilitator, and any other person requested by the school or the parents. The purpose of the SBLC committee is to discuss concerns and to implement or review school-based interventions designed to address the child's difficulties. All requests for evaluation are processed through SBLC. Students must be evaluated by a multi-disciplinary team and classified as exceptional before special education services can be provided. The evaluation team may be composed of a psychologist, educational diagnostician, speech pathologist, social worker, audiologist, physical therapist, occupational therapist, and an adapted physical education teacher. Requests for screening may come from a parent, teacher, principal, designated school personnel, physicians, or any other professionals interested in the child's well-being. For concerns about screening and evaluation, contact your child's teacher or the SBLC Facilitator at the school.

EXTENDED SCHOOL YEAR SERVICES

In accordance with Section 450 of Bulletin 1706, Extended School Year Services (ESYS) are provided for eligible students with disabilities who require special education instruction and related services for more than 180 days. All students receiving special education services, excluding the academically gifted or talented must be screened annually to determine eligibility regardless of previous participation or nonparticipation in the Extended School Year program.

IEP PLACEMENT

The IEP or ITP-Placement Committee will be composed of a representative of the Office of Special Educational Services, who will conduct the meeting and explain the results of the evaluation and programs available, the parents or legal guardians, a school administrator, classroom teachers, who will describe classroom behavior and academic performance, the special education teacher, who will write the IEP, and other individuals at the discretion of the parent or school system. In addition, related services personnel will attend where appropriate. The parents will be encouraged to contribute to the writing of the IEP with suggestions of what they would like their child to accomplish in the program.

SPECIAL OLYMPICS

The Special Olympics program in St. Mary Parish originated in 1974 with 18 students. Students from across the school district participate. The Special Olympics provides students with disabilities the opportunity to have successful experiences in sports, to gain confidence and self-mastery which will enable them to build a positive self-image, to provide opportunities for socialization, and to assist in the transfer of skills learned in the classrooms (self-help, academics, and communication) to a more natural environment. Over the years, this program has shown its value and worth and is now an integral part of the curriculum.

SECTION 504

Parents with concerns about children who are suspected of having a disability, which interferes with a major life activity, should contact the child's teacher or the SBLC facilitator in the child's school. Section 504 disabilities may include, but are not limited to characteristics of dyslexia, ADHD, or health problems.

VOCATIONAL TRANSITION

Transition planning helps students, ages 16–21 with specific disabilities, and their families identify long-range goals for life after high school and outline the anticipated support needs. Post-school activities can include college, vocational training, employment, continuing and adult education, adult services, independent living, or community participation. The transition plan provides the foundation for coordinated efforts among the student, his/her parents or legal guardians, the school, and adult service providers.

STUDENT OF THE YEAR

The Louisiana Department of Education's Student of the Year Awards Program recognizes excellence in students in grades 5, 8, and 12 who have demonstrated leadership, service, citizenship, academic or career and technical achievement. Each school in St. Mary Parish selects a Student of the Year from these grade levels using criteria provided by the LDOE. To be eligible, students complete a portfolio that includes academic records, an autobiographical sketch, documentation of leadership, service, citizenship, and awards. Additionally, students participate in an interview panel and submit a short essay. The district level committee uses the same criteria to select one student from each grade level to represent the district at regionals.

- Grade 5 nominees must have a cumulative grade point average of at least 3.1 on a four-point scale based on grades from 2nd grade through the first grading period or semester of 5th grade.
- Grade 8 nominees must have a cumulative grade point average of at least 3.1 on a four-point scale based on grades from 5th grade through the first grading period or semester of 8th grade.
- Grade 12 nominees must have a cumulative grade point average of at least 3.1 on a four-point scale based on grades from grade 9th grade through the first grading period or semester of 12th grade.
-

TEXTBOOKS

Students are responsible for the care of all his/her textbooks. Students must not deface or damage textbooks. All textbooks must be returned, and parents are responsible to pay to replace lost or damaged textbooks.

TEACHER BILL OF RIGHTS (R.S. 17:416.18)

Respecting the authority of teachers is essential to creating an environment conducive to learning, effective instruction in the classroom, and proper administration of city, parish, and other local public schools. To maintain and protect that authority, it is important that teachers, administrators, parents, and students understand the various rights conferred upon teachers.

- A teacher has the right to teach free from the fear of frivolous lawsuits, including the right to qualified immunity and to a legal defense, and to indemnification by the employing school board for actions taken in the performance of duties of the teacher's employment.
- A teacher has the right to appropriately discipline students in accordance with any city, parish, or other local public school board regulation.
- A teacher has the right to remove any persistently disruptive student from his classroom when the student's behavior prevents the orderly instruction of other students or when the student displays impudent or defiant behavior and place the student in custody of the principal or his designee.
- A teacher has the right to have his or her professional judgment and discretion respected by school and district administrators in any disciplinary action taken by the teacher in accordance with school and district policy.
- A teacher has the right to teach in a safe, secure, and orderly environment that is conducive to learning and free from recognized dangers or hazards that are causing or likely to cause serious injury.
- A teacher has the right to be treated with civility and respect as provided.
- A teacher has the right to communicate with and to request the participation of parents in appropriate student discipline decisions.
- A teacher has the right to complete only paperwork that is not excessively burdensome and that, if required by law or regulation, adheres to the law or regulation and does not result in overly cumbersome interpretations of that law or regulation.
- A beginning teacher has the right to receive leadership and support, including the assignment of a qualified, experienced mentor who commits to helping him/her become a competent, confident professional in the classroom and offers support and assistance as needed to meet performance standards and professional expectations.
- A teacher has the right to be afforded time during the school day or week to collaborate with other teachers.

PUBLIC CONDUCT ON SCHOOL PROPERTY (KGA)

Any person attending any school-related event will conduct himself with politeness, decorum, and proper sportsmanship. Any person entering any School Board property shall be required to conduct himself in accordance with acceptable standards of conduct and show respect for the law and rights of others. Any person who disrupts the orderly educational process while on a school campus may be restricted or banned from such property by the Superintendent. In addition, any person who behaves in an unsportsmanlike manner during an athletic or co-curricular event may be ejected from the event and be denied admission to other events.

Should a person's conduct while on school property become so disruptive that it threatens the safety of any employee or student, school personnel shall be authorized to notify law enforcement personnel for assistance. Examples of unacceptable conduct include, but are not limited to using vulgar or obscene language or gestures, possessing or being under the influence of any alcoholic beverage or illegal substance, possessing a weapon, fighting or otherwise striking or threatening another person, failing to obey the instructions of a security officer or school district employee, interfering in any way with an athletic or co-curricular event, or engaging in any activity which is disruptive or illegal.

The Superintendent shall have the authority to review the circumstances and make the final decision regarding the banning of any individual from any or all school functions in SMP. Students demonstrating any of the above conduct shall be subject to disciplinary action in accordance with the SMP Discipline Matrix.

VISITORS AND SCHOOL EVENTS (KM)

Principals shall be responsible for establishing procedures that ensure the proper protection of instructional time and the welfare of the students and employees. In accordance with state law, no person is allowed on school grounds without authorization from the appropriate school official. All visitors shall report to the school office immediately upon coming onto school grounds. Office personnel and the principal shall be made aware of the purpose of the visit. Where possible, visits should be pre-arranged.

To ensure the safety of students and staff while on school campuses, the SMP School Board has authorized principals to request the assistance of law enforcement to address unauthorized visitors. Principals and designated school personnel are also authorized to search any person while on any school property and to require visitors to walk through CEIA OPENGATE weapons detection systems.

NOTE: All attendees at SMP events on any SMP facility at any hour must follow the SMP Clear Bag Policy.

WEAPON DETECTION SYSTEMS

Out of concern for the safety and security of students, employees, and visitors, SMP implemented the use of CEIA OPENGATE weapons detection systems on all campuses. Every student (PK-12) will be screened daily as they enter the school building. Bookbags will also be searched during this screening procedure. Should there be an alert, students will be expected to fully cooperate in determining the cause of the alert. Searches to resolve such alerts will be conducted immediately. Failure to cooperate or submit to additional screening as requested by staff may result in disciplinary consequences. ALL visitors will be screened using the CEIA OPENGATE weapons detection system, as well as adhere to the SMP Visitor Clear Bag Policy upon visiting any campus for all events.

VISITOR CLEAR BAG POLICY FOR ALL EVENTS & FACILITIES

To ensure stakeholder safety, for all SMP events, at all facilities, for any purpose, during any hour, the Clear Bag Policy will be enforced. Anyone with a bag that does not meet the criteria outlined will not be permitted entrance. While safety measures can sometimes be inconvenient, stakeholder safety must be a priority.

STUDENT CODE OF CONDUCT (JCD) (JD)

ST. MARY PARISH SCHOOLS BOARD RESPONSIBILITY

The School Board is legally responsible for maintaining a safe, proper learning environment and for providing the foundation for addressing the discipline of students (RS.17:416). The School Board expects students to be well-behaved; therefore, every school employee shall be authorized to hold every student accountable for his/her behavior throughout the school day and during any school-sponsored activity on school campuses, on school buses, on the street going to or returning from school, and at any other location or time of a school-related event. The School Board shall demand reasonable student behavior and administer discipline with fundamental fairness without regard to gender, race, ethnic origin, religion, or political belief. All students shall be afforded the basic rights of citizenship recognized and protected for persons of their age and maturity. Moreover, the School Board reserves the authority to discipline students for behavior involving audio, video, or other materials and information that may appear on the Internet or transferred over electronic devices that constitute a material disruption of the educational process.

This St. Mary Parish Public Schools Student Code of Conduct includes summaries of discipline-related policies, administrative procedures, student consequences, and the SMP Discipline Matrix. To review all complete SMP student-related policies, please visit [St.MaryCAPS \(stmaryk12.net\)](http://St.MaryCAPS.stmaryk12.net), Section J: Students.

AUTHORITY OF SCHOOL EMPLOYEES TO DISCIPLINE (JD)

Each teacher shall, at the beginning of each school year and periodically throughout the school year, provide his or her students with the school-wide discipline plan and how it applies to the classroom. The teacher will teach behavioral expectations and provide a system to acknowledge appropriate behavior and remediate behavioral deficits.

Each school employee may take action to correct a student who violates school rules or who interferes with an orderly education process. Disciplinary actions by school employees may include but are not limited to oral or written reprimands, referrals to the school counselor, written notifications to parents providing a copy to the principal, parent-teacher conferences, and other disciplinary measures approved by the principal. Approved communication channels include school email, phone calls, and JTEXTS.

No principal or administrator shall prohibit or discourage a school employee from taking disciplinary action, recommending disciplinary action, or completing a form to initiate disciplinary action against a student who violates school policy or who interferes with an orderly education process. No principal or administrator shall retaliate or take adverse employment action against a school employee for taking disciplinary action against a student if the disciplinary action that the teacher takes is in accordance with School Board policy.

AUTHORITY OF SCHOOL ADMINISTRATORS TO DISCIPLINE

Principals shall have both the authority and the duty to take disciplinary action whenever the behavior of any student materially interferes with school safety or disrupts a proper atmosphere for learning at school or at any school-related function. Depending on the severity of the infraction committed by the student, the principal retains the right and responsibility to use any form of discipline outlined in this SMP Student Code of Conduct. Any school administrator involved in the discipline of students shall recuse himself/herself when discipline procedures involve a member of his/her immediate family. In case of recusal, the action to be taken shall be done so by the Superintendent or designee. Immediate family is defined as the individual's children or children of the individual's brothers, sisters, parents, and/or spouse and the children of the spouse's brothers, sisters, and parents.

MULTI-TIERED SYSTEMS OF SUPPORT (MTSS/PBIS)

The School Board's primary goal is to educate, not discipline; however, when the behavior of the individual student disrupts the safe, orderly process of education or comes in conflict with the rights of others, corrective actions become necessary for the benefit of the individual and the learning environment. The School Board shall address student behavior with a focus on evidence-based interventions prioritizing classroom and school-based support in lieu of out-of-school disciplinary removals allowing schools to address misconduct while minimizing the loss of instructional time. The School Board shall establish regulations ensuring that disciplinary measures within schools are administered uniformly, consistently and in a nondiscriminatory manner.

RESPONSIBILITY OF STUDENTS

Students have the responsibility to understand this Student Code of Conduct written in compliance with St. Mary Parish School Board policies and the laws of the state of Louisiana. Students shall respect the authority of principals, teachers, and other school personnel while at school or at any school-related function. Students shall exercise their rights and responsibilities in accordance with this Student Code of Conduct established to maintain an orderly school environment conducive to learning. Students who violate this established code of conduct shall be subject to the disciplinary measures outlined in the St. Mary Parish Discipline Matrix.

ANONYMOUS REPORTING

The School Board has a cooperative agreement with Crimestoppers, Inc. for the purpose of coordinating a multi-agency response to preventing and solving school infractions and crimes. This MOU provides an anonymous reporting system to students through the app, a phone call, or the online link on the district website. The technology provided will allow students to anonymously report terrorist threats, possession of weapons, vandalism, possession of narcotics, vaping, theft, assault, dating violence, threats of self-harm, mental health concerns, bullying, cyberbullying, and/or gang activity in addition to any other perceived threats to student and school safety. Students are encouraged to access this technology whether the incident is in the process of occurring, may occur in the future, or has already occurred. For more information, please visit Crimestoppers Safe School Louisiana at www.safeschoolsla.com. The goal of anonymous reporting is to stop violence and other unsafe incidents.

DISCIPLINE REFERRALS

Teachers and other school employees shall report to the principal any student who acts in a disorderly manner or is in violation of the SMP Student Code of Conduct. Incidents of alleged discipline infractions shall be reported using the School Behavior Report by the Louisiana Department of Education to school administrators who shall review such information to determine the necessary disciplinary actions. Within 48 hours, excluding non-workdays, the principal shall return to the school employee who submitted the referral a completed copy indicating the administrative action taken.

DUE PROCESS IN THE DISCIPLINARY PROCESS

Students must be afforded due process in disciplinary procedures. Procedural due process is based on the concept of "fundamental fairness." It includes an individual's right to be adequately notified of the allegations of misconduct and proceedings and be granted the opportunity to be heard at these discipline proceedings. Parents must be notified of the disciplinary proceedings but have no right to be present during the administrator's investigation or during interviewing of the student. The administrator has discretion to allow the latter when it would aid the investigative process to do so.

When a student has been written up and the disciplinary process begins, the following must occur:

1. The student must be told what he/she is accused of and by whom (faculty member).
2. The student must be given an opportunity to tell his/her version of the facts and write a statement of such.
3. The student must be allowed to provide any witnesses to the event.
4. The student must be informed of the administrator's action on the infraction and the consequence.

DISCIPLINARY PARENT CONFERENCES

If a teacher, principal, or other school employee is authorized to require the parent/legal guardian of a student to attend a conference or meeting regarding the student's behavior, and, after notice, the parent or legal guardian willfully refuses to attend, the principal shall file a complaint according to statutory provisions with a court exercising juvenile jurisdiction. Notice of the conference specifying the time and date of the conference shall be given by contacting the parent or legal guardian by telephone at the telephone number shown on the student's registration card or by electronic communication or by sending a certified letter to the address shown on the student's registration card. Parents may be required to attend a conference when a student is removed from a classroom and when a student is suspended a second time within one school year. Parents shall be required to attend a conference in each case of re-admitting a student to school following an out-of-school suspension or expulsion.

DISCIPLINE OF STUDENTS WITH DISABILITIES

Discipline of students with disabilities or exceptionalities shall be to the extent allowed by applicable state or federal law and regulations and consistent with the provisions of the student's Individualized Education Program (IEP) or Section 504 Plan (IAP). Generally, a student with an IEP or an IAP may not be removed from his or her current placement more than ten days consecutively or cumulatively for violating the Code of Conduct without a determination of whether the conduct in question is caused or has a direct and substantial relationship to the student's disability. This is decided by consensus in a Manifestation Determination Review. Expulsion of students with disabilities or exceptionalities with an Individualized Education Program or Section 504 Individualized Accommodation Plan shall be to the extent allowed by applicable state or federal laws.

BEHAVIORAL HEALTH SUPPORT FOR STUDENTS (JGCF)

Referral for assessment and treatment. The St. Mary Parish School Board recognizes that students with behavioral or emotional challenges may be at risk of their behavior escalating into aggression or disruption, disciplinary actions resulting in suspension or expulsion, or juvenile delinquency. The School Board, through its superintendent, shall adopt and maintain rules and regulations for a program which assists school personnel to identify such signs and symptoms of a student with behavioral or emotional challenges. A designated employee at each school shall be responsible for identifying behavioral and mental health support services available in the community, and when appropriate, facilitating a referral of a student to those services for assessment and treatment, including services provided through the Louisiana Coordinated System of Care and its Medicaid provider network.

Second out-of-school suspension. After any second OSS during the same school year, the principal or his/her designee and the designated employee shall consult on whether the student's behavior could be attributable to behavioral or emotional challenges. If it is determined that the behavior is attributable to behavioral or emotional challenges and rises to the level that supportive services could be beneficial, the principal and/or the designated employee shall schedule a conference with the student's parent or legal guardian to discuss the student's behavior and counseling as well as the referral of the student and family to support services for assessment and treatment.

Annual report. The School Board shall report to the Louisiana Department of Education and the House and Senate committee on education the number of students identified as possibly having behavioral or emotional challenges, the number of students for which a conference was scheduled, and the number of students referred for assessment and supportive services. The reports shall be submitted annually on July first and shall reflect data from the previous school year.

REMOVAL FROM THE CLASSROOM (JD)

A student shall be immediately removed from a classroom by his/her teacher and placed in the custody of the principal if the student's behavior prevents the orderly instruction of other students, poses an immediate threat to the safety of the teacher or other students, or when a student violates the Student Code of Conduct. Upon removal, the principal shall advise the student of his/her misconduct and give the student the opportunity to explain his/her version of the facts. The student shall not be readmitted to the classroom until the principal has implemented support measures and has assigned consequences as applicable. K-5 students shall not be permitted to return to class for at least 30 minutes; 6-12 students shall not return during the same class period in which the behavior occurred. Students shall be provided with the academic assignments missed and shall receive credit for such work if completed on time and satisfactorily. The principal shall notify parents of any student removed from the classroom and may require a disciplinary parent conference. Students shall not be readmitted to the classroom until the principal has implemented and documented at least one disciplinary measure. Upon a student's third removal from the same classroom, prior to the student's readmittance, the teacher, principal, and parent are required to hold a conference to discuss the student's disruptive behavior patterns.

SECLUSION AND RESTRAINT (IDDF)

Louisiana R.S. 17:416.21 governs the use of seclusion and restraint for students with exceptionalities in Louisiana public schools. It allows these interventions to be used only when school personnel reasonably believe a student's behavior poses an imminent risk of harm to himself or others. Schools must deploy positive behavioral and de-escalation support strategies before using seclusion or restraint. Each incident of seclusion or restraint must be documented and reported to parents/legal guardians and to appropriate school and district administrators. The Louisiana Department of Education also maintains a statewide database of all reported incidents for oversight and accountability. Schools are provided with the proper protocols and training needed in accordance with district policy and state law. This section is a summary. For additional information about seclusion and restraint procedures, please visit the Special Services tab of the district website or the SMP Policy Manual also found online.

SCHOOL AND STUDENT SAFETY (EBBB)

The School Board is committed to providing a safe environment for the students, employees, and guests in its schools and at its activities. Toward that end, the School Board shall comply with the *Louisiana School and Student Safety Act* (La. Rev. Stat. Ann. §§17:409-17:409.5) and shall take immediate action to address potential threats of violence or terrorism to individuals in its facilities. The Superintendent shall develop, in consultation with local law enforcement agencies, age-appropriate information regarding internet and cell phone safety and online content that is a potential threat to school safety. The information shall include how to recognize and report potential threats to school safety posted on the internet, including but not limited to social media posts. This information shall be distributed or explained to school personnel and students at the beginning of each school year and shall be posted on an easily accessible page of each school's website, as well as the website of the School Board. Such information shall include instruction on how to detect potential threats to school safety, visual examples of possible threats, and the process for reporting such threats. The term *threat of violence* is defined as a communication, whether oral, visual, or written, including but not limited to email, letters, notes, social media posts, text messages, blogs, or posts on any social networking website, of any intent to kill, maim, or cause great bodily harm to a student, employee, or guest on school property or at any school function. The term *threat of terrorism* means communication, whether oral, visual, or written, including but not limited to email, letters, notes, social media posts, text messages, blogs, or posts on any social networking website, of any crime of violence that would reasonably cause any student, employee, or guest to be in sustained fear for his safety, cause the evacuation or lockdown of a building, or cause any other serious disruption to the operation of a school.

THREATS

Any administrator, teacher, counselor, bus operator, or other SMP employee, whether full-time or part-time, who learns of a threat of potential violence or terrorism, whether through oral communication, written communication, or electronic communication, shall immediately report the threat to a local law enforcement agency and to school administrators. In addition, any police officer or law enforcement officer who works as a school resource officer shall be considered a mandatory reporter. A school resource officer shall not receive information from another mandatory reporter or commence or oversee any investigation into the report. No person shall have a cause of action against any SMP employee for any action taken or statement made in adherence with the requirement for reporting as provided herein. However, the immunity from liability provided in this policy shall not apply to any action or statement if the action or statement was maliciously, willfully, and deliberately intended by the school employee to cause harm to, harass, or intimidate the person(s) named in the report or to deceive law enforcement or school officials.

MANDATORY EVALUATION

If a student is reported to a local law enforcement for issuing a threat of violence or terrorism, the student shall not be permitted to return to school until undergoing a formal mental health evaluation. The law enforcement agency shall file a petition with the appropriate judicial district court for such an evaluation. If the student refuses to be examined by the court-appointed health professional, or if the report of the treating health professional concludes that the student is a danger to himself or others or that he is suffering from substance abuse and needs immediate hospitalization, the student shall not be allowed to return to school and may be transferred by court order to a treatment facility. If the report of the treating medical or mental health professional concludes that the student is not a danger to himself or others and is not in need of immediate hospitalization, then the student may be returned to school but the court may require that the student continue outpatient mental health treatment. If the person who is reported to a local law enforcement agency is not a student, he or she shall not be permitted to be within five hundred feet (500') of any school until he or she has undergone a formal medical or mental health evaluation and has been deemed by a health care professional not to be dangerous to himself/herself or others.

SUSPENSIONS

Principals have the authority to suspend a student for a specified period in accordance with statutory provisions and the SMP Discipline Matrix.

SECOND SUSPENSION (JDD)

After any second suspension of a student during the same school year, the principal and the employee designated by the principal to identify behavioral and mental health support services available shall consult on whether the student's behavior could be attributable to behavioral or emotional challenges. If it is determined that the behavior is attributable to behavioral or emotional challenges and rises to the level that supportive services could be beneficial, the principal or his/her designee and the employee

designated for mental and behavioral health assistance shall schedule a conference with the student's parent or legal guardian to discuss the student's behavior and counseling as well as the referral of the student and family to support services or assessment and treatment.

THIRD SUSPENSION (JDD)

Notwithstanding any public-school state or local policies, a student in grades six through twelve who is suspended a third time within the same school year for any offense, excluding those related to dress code or tardiness, **shall be** recommended for expulsion. Students in grades PK through fifth grade **shall be** expelled for the remainder of the school year upon the fourth suspension within the same school year for drugs or weapons violations.

EXPULSIONS (JDE)

A student maybe be expelled if a behavioral infraction committed is serious enough to warrant such action or is in violation of state law. Prior to any expulsion, the principal shall advise the student of the infraction of which he/she is accused as well as the basis for such accusation, and the student shall be given an opportunity at that time to explain his/her version of the facts. Upon the recommendation for expulsion of a student by the principal, a hearing shall be conducted by the School Board's hearing officer within fifteen (15) school days to determine the facts of the case and make a finding of whether the student is guilty of conduct warranting an expulsion. The student's parents/legal guardians shall be provided with written notice of the hearing, and the notice shall advise the student and his/her parent or legal guardian of their rights. Until the hearing, the student shall remain suspended out-of-school with access to classwork and the opportunity to earn academic credit.

A student who is suspended for longer than ten (10) days or expelled shall be provided with academic instruction at an alternative setting in accordance with La. Rev. Stat. Ann. §[17:416.2](#). At the hearing, the principal shall be permitted to attend and present any relevant information. Upon conclusion of the hearing, the Office of Child Welfare and Attendance shall notify the parents of the decision rendered by the hearing officer and the specified period of expulsion, or any other disciplinary action to be taken. Unless otherwise stipulated by state statutes, the period of expulsion shall not be less than one school semester and may carry over into the next school year when necessary. The student shall be provided with academic instruction at an alternative setting in accordance with La. Rev. Stat. Ann. §[17:416.2](#).

Appealing An Expulsion. The parent/legal guardian of a student who has been expelled shall have the right to submit a request for review by the Superintendent's designee. Such a request must be made in writing within five days after the decision is made, or the hearing decision is final. A further appeal may be made to the School Board. The School Board may affirm, modify, or reverse the action previously taken. The parent or legal guardian of the student may, within ten school days, appeal to the judicial district court an adverse ruling of the School Board upholding the action of the Superintendent or designee. The Court may reverse or revise the ruling of the School Board upon a finding that the ruling of the School Board was based on an absence of any relevant evidence in support thereof.

REASONS FOR EXPULSION (JDE)

Alcohol. Marijuana. Tobacco. Vapes (Nicotine). Any student in grades 6-12 found guilty of being in possession of tobacco, alcohol, or vaping product or found guilty on the first occurrence of being in possession of marijuana, tetrahydrocannabinol (THC), or any chemical derivatives thereof on school property, on a school bus, or at a school-sponsored event may be recommended for expulsion.

Discipline Infractions. Any student, after being suspended for committing violations of any discipline policies or other rule infraction, depending on the severity on the behavior, may be expelled.

Felony. The conviction of any student of a felony or the incarceration of any student in a juvenile institution for an act which had it been committed by an adult would be a felony, may be cause for expulsion of the student for a period of time as determined by the School Board; such expulsions shall require the vote of two-thirds (⅔) of the elected members of the School Board, shall not be for a period of time longer than the student's period of adjudication as determined by the applicable court presiding over the student's criminal matter, and shall run concurrent to the student's period of disposition. If the student was serving an expulsion period when the student was incarcerated for a separate offense and the student completes the period of incarceration with time left in the expulsion period, the Superintendent or his/her designee may require the student to serve the time left in the expulsion period.

Knives. Firearms. Illegal Drugs. Any student PK-5 found carrying or possessing a knife with a blade which equals or exceeds two and one-half (2 ½) inches may be recommended expulsion. Any student in grades 6-12 who is found guilty of being in possession of a firearm, a knife with a blade equal to or in excess of two and one-half inches (2 ½") in length, or any illegal narcotic, drug, or other controlled substance on school property, on a school bus or at a school-sponsored event shall be expelled for a minimum of two (2) complete semesters and shall be referred to the district attorney for appropriate action. Firearm is defined as any pistol, revolver, rifle, shotgun, machine gun, submachine gun, black powder weapon, or assault rifle that is designed to fire or is capable of firing fixed cartridge ammunition or from which a shot or projectile is discharged by an explosive.

Marijuana. THC. Any student found guilty of being in possession of marijuana, tetrahydrocannabinol (THC), or any chemical derivative thereof shall not be subject to an expulsion unless it is the second or subsequent occurrence.

Any student in grades 6-12 who is suspended a third time within the same school year for any offense, excluding those related to dress code or tardiness (late to class), shall be recommended for expulsion. Any student in grades PK-5, after being suspended on three (3) occasions for committing drugs or weapons offenses during the same school year, upon committing the fourth offense, shall be expelled from all the public schools of the system until the beginning of the next regular school year, and the student's reinstatement shall be subject to the review and approval of the School Board.

Weapons. In accordance with federal regulations, a student determined to have brought a weapon to a school under the School Board's jurisdiction shall be expelled for a minimum of one calendar year. A weapon, in accordance with federal statutes, means a firearm or any device which is designed to expel a projectile or any destructive device, which in turn means any explosive, incendiary or poison gas, bomb, grenade, rocket, missile, mine or similar device.

ST. MARY PARISH ALTERNATIVE PROGRAM (IDDG)

Students exhibiting behavioral concerns in the regular school setting are referred to Child Welfare and Attendance. A conference or disciplinary hearing is held with the referring principal, parent/legal guardian, student, the hearing officer, and if necessary, a special education representative. Here, the hearing officer listens to the facts of the most recent violation of the Student Code of Conduct, considers the seriousness of the infraction, and reviews the student's discipline record, examining the number of infractions. Based on this information and any legislation relevant to the most recent infraction, the hearing officer will determine whether the student's behavior warrants a long-term suspension or an expulsion resulting in placement at the SMP Alternative Program. Here, the duration of the placement is also determined by the hearing officer. The SMP Alternative Program offers additional behavioral supports and interventions in addition to academic instruction. While attending classes at the alternative program, students shall not attend any school-related functions whether on or off SMP facilities. All truancy laws apply in this setting.

- Students are grouped appropriately by age and/or grade span and receive grade-level instruction.
- Support services are provided for any student with special needs in accordance with the IEP or IAP.
- High school students continue to earn grades and/or complete course credits where applicable online through Edgenuity. The supervisor of the alternative program collaborates with school counselors to ensure that, to the extent possible, each student is enrolled in the same courses that he/she was taking at his/her school site. High school students eligible for Credit Recovery may schedule needed coursework through Edgenuity and can earn Carnegie Units.
- Middle school students continue to earn grades through *Edmentum*. Students are enrolled in core courses on grade level, a career exploration elective, and character education modules.
- Elementary students receive instruction in core courses, art, and character education.
- Students will receive progress reports and report cards according to the St. Mary district calendar.

READMITTANCE FOLLOWING EXPULSION (JDE)

At the conclusion of an expulsion, the principal shall contact the parent or legal guardian to schedule a conference. If the parent or legal guardian fails to attend the required conference, within five school days of notification, the student may be considered truant, and the principal shall file a complaint in accordance with statutory provisions with the court exercising juvenile jurisdiction. Should the parent or legal guardian refuse to respond, the principal may determine whether readmitting the student is in the best interest of the student. On any subsequent occasions in the same school year, the student shall not be readmitted unless the parent or legal guardian, court, or other appointed representative responds. Readmission to school is on a probationary basis and shall be contingent on the student and parent or legal guardian agreeing in writing to the conditions stipulated. Such agreement shall contain a provision for immediate removal of the student from school premises and return to the school system's alternative setting without a hearing upon the principal determining that the student has violated the agreement. Immediately thereafter, the principal shall provide proper notification in writing of the determination and reasons for removal to the Superintendent and the student's parent or legal guardian.

READMITTANCE AFTER EXPULSION FOR FIREARMS, KNIVES, WEAPONS, OR DRUGS

In addition to the provisions for expulsions stated above, a student expelled for a violation related to firearms, knives, other dangerous weapons, drugs, or dangerous controlled substances shall not be readmitted to any public school of the school system prior to the completion of the expulsion at the alternative program and until the student produces written documentation that he/she and his/her parent or legal guardian have completed or is actively participating in an appropriate rehabilitation or counseling program related to the reason for the expulsion. The rehabilitation or counseling programs shall be provided by such organizations approved by the court having jurisdiction or by the School Board.

ASSAULT OR BATTERY OF SCHOOL EMPLOYEES

Whenever a student is formally accused of violating the provisions of R.S. 14:34.3 or R.S. 14:38.2 and the Code of Conduct by committing an assault or battery on any SMP employee, the principal shall suspend the student from school immediately. The student shall be removed immediately from the school campus without the benefit of out-of-school suspension procedures; however, the necessary notifications and other procedures shall be implemented as soon as is practicable. Additionally, whenever a teacher is struck by a student, the student, in addition to any other discipline given, shall be permanently removed from the teacher's classroom, unless the teacher objects, or unless the principal with the concurrence of the building level committee finds the striking incident to be entirely inadvertent. Until all hearings and appeals associated with the alleged violation have been exhausted, no student suspended in accordance with the provisions of this policy shall be considered for readmission to the school to which the allegedly assaulted or battered school employee is assigned, except when the school system has no other school of suitable grade level for the student to attend. Notwithstanding any provision of R.S. 17:158 to the contrary, a school system shall not be required to provide transportation to any student reassigned to attend a school pursuant to the provisions of this section if providing such transportation for the student will result in additional transportation costs to the school system.

BULLYING – CYBERBULLYING – HARASSMENT – HAZING (R.S. 17:416.14)

Any student determined to be guilty of bullying, cyberbullying, harassment, and hazing will be disciplined according to the SMP Discipline Matrix.

Bullying is defined as a pattern of any one or more of the following:

- a) gestures, including but not limited to obscene gestures and/or making faces,
- b) written, verbal, or electronic communications via various technologies and/or social media including but not limited to name-calling, threats, taunting, malicious teasing, or spreading rumors,
- c) physical acts such as hitting, kicking, pushing, tripping, damaging personal property, etc. or
- d) purposeful shunning or exclusion.

The pattern of behavior is exhibited more than once toward a student by another student or group of students on school property, at any school-related activity, at any bus stop, on any school bus, or in any other vehicle transporting students. The pattern of behavior shall have the effect of physically harming a student, placing the student in reasonable fear of physical harm, damaging a student's property, placing the student in reasonable fear of damage to the student's property, or shall be sufficiently severe, persistent, and pervasive enough to create an intimidating or threatening educational environment, have the effect of substantially interfering with the target's performance in school, or have the effect of substantially disrupting the orderly operation of the school.

Cyberbullying is a form of bullying defined above through the transmission of any electronic textual, visual, written, or oral communication with malicious and willful intent to coerce, abuse, torment, or intimidate.

Harassment can be defined as unwanted, unwelcomed, and discriminatory verbal, written, physical, or gestured behaviors ranging from teasing, casual comments to more severe and pervasive and are based on the target's race, national origin, sex (including gender identity or sexual orientation), religion, or disability.

Hazing is defined as any knowing behavior of any student to encourage, direct, or participate in any activity that subjects another student to potential physical, mental, or psychological harm for the purpose of initiation, admission into, affiliation with, continued membership in, or acceptance by existing members of any organization or extracurricular activity. The School Board prohibits the engagement of students, faculty, and staff in the involvement of hazing on any campus, at any school-related function, or

on any school bus. Aiding and abetting another person who engages in hazing is prohibited. The consent of the hazing victim is not a defense. All SMP employees shall take reasonable measures within the scope of their individual authority to prevent hazing. Cases involving a victim who has been severely physically, mentally, or psychologically harmed will require law enforcement intervention.

To report bullying, cyberbullying, harassment, and hazing:

- Targets should immediately report the behavior to any SMP employee or other trusted adult who will report on the student's behalf.
- Students witnesses or bystanders are encouraged to report the behavior. Students can use the anonymous reporting link on district website or the link here: <https://www.safeschoolsla.com/sitemenu.aspx?ID=5010&>
- SMP employees shall communicate to school administrators verbally in person all reports of bullying, cyberbullying, harassment, and hazing.
- School administrators shall promptly investigate according to the protocol and timeline set by the Louisiana Department of Education.
- If the complainant student or parent feels that an appropriate resolution of the investigation or complaint has not been reached after consulting the school principal, the student or the parent of the student should contact the local superintendent or his or her designee.
- The school system prohibits retaliatory behavior against any complainant or any participant in the investigation.

CELL PHONES & OTHER ELECTRONIC TELECOMMUNICATION DEVICES

No student shall possess on his/her person a cell phone or other electronic telecommunication device for the duration of the instructional day or on a school bus.

- Students in PK-5 grade are prohibited from bringing cellphones and other telecommunication devices to school.
- Students in grades 6-12 may bring cellphones and other telecommunication devices to school, but these must be powered down and locked in lockers.
- If a student is in violation of this policy, the phone or other device will be confiscated, and discipline will be carried out according to the SMP Discipline Matrix. The confiscated device shall be held in the school's office, and the student's parents/legal guardians shall be contacted within 24 hours to sign for and collect the device.
- A student's refusal to relinquish this device shall result in a suspension pending a hearing with a recommendation for a long-term suspension.

UNAUTHORIZED PICTURES OR VIDEOS

Students are prohibited from taking unauthorized pictures and/or making unauthorized videos on school campuses, on school buses, or at school related events. Students are also prohibited from posting or sharing such pictures and videos electronically or on social media. Unauthorized pictures or videos are defined as photographs or recordings of SMP employees or other students without prior consent of school administrators and with the knowledge and expressed consent of the SMP employee or other students. Discipline for violating this policy will be carried out according to the SMP Discipline Matrix.

DATING VIOLENCE

Teen dating violence is defined as a pattern of coercive behavior within a dating relationship where one partner exerts power and control over the other partner through the intentional use of physical, sexual, verbal, or emotional abuse that can be harmful, threatening, and intimidating. This type of abuse can range from subtle to extreme. Indicators that someone is a perpetrator of dating violence include but are not limited to the abuse of others, acts of jealousy and possessiveness, seriousness about the relationship too quickly, tends to be critical and insulting, controls the attire of the partner, blames his/her behavior on the partner, excessive contact with the partner, isolates the partner, make decisions for the partner, offer gifts after arguments, pressures partner into sexual activity, threatens to hurt or kill himself/herself if relationship ends. Warning signs that someone is a victim of dating violence include but are not limited to apologies for the partner's behavior, avoidance of adults, friends, and family, fear of partner, worries about how the partner will react, changes in appearance, academic decline, quits involvement in activities, sudden mood changes, unexplained bruises, scratches, or injuries, struggles to make decisions.

Report dating violence to school personnel immediately. If the dating violence is occurring on campus, all applicable discipline policies will be followed. Parents/legal guardians will be contacted. The number for the National Domestic Violence Hotline is 1-800-799-SAFE (7233). The Louisiana Hotline is 1-888-411-1333. For immediate danger, call 911.

DELINQUENT STUDENTS

Students who regularly disrupt the safe and orderly school environment shall be considered delinquent and may be reported to the appropriate juvenile court. Any student that exhibits disruptive behavior, an incorrigible attitude, or any other discipline problems in general may be recommended for long-term suspension and/or assignment to an appropriate alternative educational placement. A delinquent student may be recommended for a transfer to adult education if the student is 17 or older with less than 5 credits toward graduation, 18 or older with less than 10 credits toward graduation, or 19 or older with less than 15 credits toward graduation.

TRANSFERRING STUDENTS AND REVIEW OF RECORDS

When a student transfers from one school to another within the SMP school district, the student's discipline and attendance records will also be transferred. The student will continue at the appropriate step in the discipline process at the receiving school. If a student enters the SMP school district from another school system, discipline and attendance records will be requested and reviewed. A student who has been expelled from any school in or out of state or district shall not be admitted to a school in the SMP school district except upon the review and approval of the School Board following the request for admission. To facilitate the review and approval for readmittance, the student shall provide the School Board with information on the dates and details of any expulsions. Additionally, the transfer of student records to any school or system from the SMP school system shall include information on the dates details of any expulsions.

OFFENSIVE STUDENT CONDUCT THAT IMPACTS THE END OF YEAR

For the duration of the time spent at the Alternative Program, students are not allowed to be present on any school campus or to attend any school-related activity; therefore, it is important that students and their parents/legal guardians understand the impact this has on student participation in milestone ceremonies.

GRADUATING STUDENTS. Any senior who commits a serious violation of the student code of conduct and whose consequence as the result of a discipline hearing is an expulsion, long-term suspension, or change of placement and who will not be able to complete the entire assignment at the alternative program prior to graduation night is deemed "not in good standing," and will not walk in graduation ceremonies or participate in year-end activities. Seniors prohibited from participating in the graduation ceremony will receive diplomas (mail or in-person) during the week following the graduation ceremony.

The principal shall also be empowered, in consultation with the Superintendent or designee, to prohibit a senior from participating in graduation exercises for non-school related activities (e.g., arrests, gang-related activities, etc.) if it is deemed that the student's participation will disrupt or detract from the decorum of the graduation exercises.

Each school in the school district with graduating seniors shall include this regulation in their senior orientation, and each senior will sign an appropriate document acknowledging receipt of these regulations. Parents will also receive a letter including information about these regulations from individual schools.

JUNIORS. Any junior who commits a serious violation of the student code of conduct and whose consequence as the result of a discipline hearing is an expulsion, long-term suspension, or change of placement is deemed "not in good standing" until the completion of the entire assignment at the alternative program; therefore, the student will not participate in year-end activities, including ring ceremony.

NON-GRADUATING STUDENTS. Any student who commits violations during the last ten (10) days of the school year which result in recommendations for long-term suspension, expulsion, and/or a change of placement shall serve the long-term suspension and/or expulsion, and/or a change of placement into the next school year. The student is deemed "not in good standing" until the completion of the consequence and will not be allowed to be present on any school campus or to attend any school-related activity.

SEARCHES (JCAB)

The School Board is the exclusive owner of all public-school buildings, desks, and lockers assigned to students and any other area of any public-school building or grounds specifically for the personal use of the students. The acceptance and use of SMP lockers, facilities, and the parking lot by students constitutes implied consent by the student and parent/legal guardian to searches. Therefore, the School Board authorizes school administrators to search these areas.

Administrators may also conduct random drug detection searches and metal detector searches of any student on a school board property, a school bus, or a school-related activity. Students shall remove all metal objects from their pockets and place the items in a designated area along with any bags, parcels, or containers carried by the student. If the metal detector is activated, the student will be asked again to remove any metal items. If the detector no longer activates, the search will be concluded. Should the detector continue to activate, the student shall be searched by authorized school personnel of the same gender in the presence of one other authorized adult. During this personal search, the items that activated the detector shall be confiscated. The search must continue until the metal detector is no longer activated. The School Board further authorizes school administrators to search the person of a student or his or her personal effects when, based on the circumstances at the time of the search, there are reasonable grounds to suspect that the search will reveal evidence that the student has violated the law or a school board policy. Such a search shall be conducted in a manner that is reasonably related to the purpose of the search and not excessively intrusive considering the age or sex of the student and the nature of the suspected offense.

Any student who refuses to cooperate fully with daily take-in searches, random searches, drug detection team searches, or searches as part of an investigation will be subject to discipline as outlined in the SMP Discipline Matrix. This includes any search required for entry into any school-related activity.

Upon the seizure of any firearm, bomb, knife, or other instrument which can be used as a weapon and the careless use of which might inflict harm or injury or any controlled dangerous substance as defined in R.S. 40:961(7), the principal shall report the confiscation to the appropriate law enforcement officials and said confiscated item(s) shall be retained and secured by the school principal in the evidence bag to prevent the destruction, alteration, or disappearance of said items. The confiscated item(s) shall immediately be turned over to the appropriate law enforcement authority. All items seized may be used in school disciplinary actions if deemed appropriate by the principal.

NOTE: A student under the influence of alcoholic beverages or drugs, shall be deemed in possession of the respective contraband, and hence subject to the appropriate school/legal penalties. A written report of all searches and seizures shall be prepared and filed by the principal.

DRUG DETECTION TEAM

The Drug Detection Team is a combined effort between law enforcement and the School Board. The Drug Detection Team provides trained drug detection dogs (K 9) in assisting administrators in locating drugs on school campuses. A law enforcement officer will handle the K9. The principal shall be responsible for all aspects of the search. The principal or designee shall be responsible for the confiscation of contraband detected by the K 9. The subsequent investigation, due process, and discipline proceedings will be in accordance with the procedures in this SMP Student Code of Conduct and the SMP Discipline Matrix.

SEXUAL HARASSMENT POLICY FOR STUDENTS—TITLE IX

Sexual harassment includes unwelcome sexual advances, use of sexually suggestive language, requests for sexual favors, and or other inappropriate verbal, visual, written, or physical conduct that is sexual nature at school, or at a school-related activity. Any student who has a complaint of sexual harassment against another student, SMP employee, or non-employee engaged in business with the school system shall submit in writing the nature of the complaint including the specific act or acts which constitute the harassment complaint, the person or person who allegedly committed the act(s), witnesses to the act(s) of which the complaint has been filed, and the dates and times of the alleged act(s). The complaint shall be forwarded to the principal as soon as possible following the alleged actions. All complaints of sexual harassment shall be investigated thoroughly and promptly. Parents/legal guardians shall be notified immediately. Any student found to have committed sexual harassment shall be subject to disciplinary action and due process according to the SMP Discipline Matrix. Any School Board employee who has actual knowledge of sexual harassment must report the conduct to the Title IX Coordinator.

The School Board does not discriminate on the basis of sex in the education programs and activities that it operates. This is a requirement of Title IX of the Education Amendments of 1972 (Title IX) and Part 106 of Title 34 of the United States Code of Federal Regulations. Any person may report discrimination based on sex, including sexual harassment, in person, by mail, by telephone, or by email to the School Board's Title IX Coordinator at any time, including during non-business hours. All reports of Title IX Sexual Harassment will be addressed according to the Grievance Procedure established in accordance with 34 CFR 106.45. Reports of and inquiries regarding unlawful sex discrimination may also be made to the Assistant Secretary for Civil Rights of the U.S. Department of Education, 400 Maryland Ave., SW, Washington, DC 20202-1100, Email: ocr@ed.gov, 1-800-421-3481. The designated Title IX coordinator of the St. Mary Parish Board is authorized to coordinate efforts to comply with Title IX and Part 106 of Title 34 of the United States Code of Federal Regulations. The Title IX Coordinator shall undergo and receive all training required by Part 106 of Title 34 of the United States Code of Federal Regulations. The SMP Title IX Coordinator is Barabra Lancelin, Drawer 580, Franklin, LA 70538; blancelin@stmaryk12.net; 337-828-1767.

NONRETALIATION

Neither the School Board nor any other person may intimidate, threaten, coerce, or discriminate against any individual for the purpose of interfering with any right or privilege secured by Title IX or Part 106 of Title 34 of the United States Code of Federal Regulations, or because the individual has made a report or complaint, testified, assisted, or participated or refused to participate in any manner in an investigation, proceeding, or hearing under this part. Intimidation, threats, coercion, or discrimination, including charges against an individual for other policy violations that do not involve sex discrimination or sexual harassment, but arise out of the same facts or circumstances as a report or complaint of sex discrimination, or a report or formal complaint of sexual harassment, for the purpose of interfering with any right or privilege secured by Title IX or Part 106 of Title 34 of the United States Code of Federal Regulations, constitutes retaliation. Any complaint of retaliation pursuant to this policy should be directed to the Title IX Coordinator. The exercise of rights protected under the First Amendment of the United States Constitution does not constitute retaliation prohibited by this policy. Charging an individual with a policy violation for making a materially false statement in bad faith in the course of a grievance proceeding under this policy does not constitute retaliation, provided, however, that a determination regarding responsibility, alone, is not sufficient to conclude that any party made a materially false statement in bad faith.

CONFIDENTIALITY

Except as necessary to carry out the purposes of 34 CFR Part 106, including the conduct of any investigation, hearing, or judicial proceeding arising thereunder, or as may be permitted by FERPA (20 USC 1232g), its regulations (34 CFR Part 99), or as required by law, the School Board shall keep confidential the identity of any individual who has made a report or complaint of sex discrimination, including any individual who has made a report or filed a formal complaint of sexual harassment, any complainant, any individual who has been reported to be the perpetrator of sex discrimination, any respondent, and any witness.

VIRTUAL SETTINGS AND DISCIPLINE

School and/or district officials are required, as mandatory reporters, to alert local law enforcement and/or the Department of Children and Family Services if any conduct, messages, images, or objects observed raise legitimate concern for the safety and well-being of students in the virtual setting. This may include students handling weapons, even if it is subsequently learned that the weapon is a toy or facsimile, as it is not always possible to determine remotely whether the weapon is real or not. Virtual students are responsible for complying with all policies in the SMP Student Code of Conduct and will be disciplined for misconduct according to the SMP Discipline Matrix. Additionally, virtual students must comply with the following:

- The recording device used for instruction must be positioned to allow teachers to observe both the student and the working and/or testing space.
- Eating and drinking are not allowed. This is hazardous to devices and can also be distracting during instruction.
- Once the students are logged in, they should mute their microphones to eliminate background noise that could distract other students.
- Additional devices should not be present within the visible working area unless teacher-approved for instructional purposes (speakers, phones, earbuds, headphones, etc.).
- Students will follow instructions from teachers regarding the method of communication and participation, such as when and how to interact verbally and how to use audio and camera.

DISCIPLINE MATRIX

MDR SYSTEM	GRADES PK-12
MULTI-TIERED SYSTEM OF SUPPORTS (MTSS) and POSITIVE BEHAVIOR INTERVENTION SUPPORT (PBIS) The most proactive approach to maintaining appropriate student behavior is a school-wide discipline plan that includes guidelines for well-managed classrooms. - Clearly established rules, rewards, and consequences must be taught to students, reinforced frequently, and enforced consistently by administration and faculty. - Each school must identify and define minor infractions. - Reinforcement of correct behaviors positively impacts the conduct of students. - Interventions redirect student behavior as needed. Possible interventions are student conferences, parent conferences, re-teaching desired behavior, cues or signals, seat changes, behavior contracts, check-ins/outs, time out, scheduled breaks, stay-away agreements, individual behavior plans, referrals to FINS (Families in Need of Services, 16th Judicial Juvenile Services), etc. - Consequences should be assigned to students quickly, fairly, and consistently to have the greatest impact on improving student behavior.	
CONSEQUENCES FOR MINOR INFRACTIONS 1st Minor Infraction: conference with student + documentation of infraction + parental contact by teacher 2nd Minor Infraction: conference with student + documentation of infraction + parental contact by teacher 3rd Minor Infraction: conference with student + documentation of infraction + classroom intervention(s) + parental contact by teacher 4th Minor Infraction: parental contact + teacher/staff completes major referral form for accumulation of minor infractions (Code 125)	
DISTINGUISHING MAJOR AND MINOR INFRACTIONS The degree of misbehavior determines whether an infraction should be considered major or minor. Minor Infractions. Behaviors that temporarily interrupt daily procedures, instruction, or activities in the classroom or during unstructured time. The student responds to redirection after correction. Examples include, but are not limited to, out-of-seat behavior, off-task conversation, eating or drinking, making noise with materials, dress code Offenses, no ID, tardy to class, Offense of classroom or school procedures, etc. Major Infractions. Sustained, repeated interruptions to daily procedures, instruction, or activities in the classroom or during unstructured time. The student does not respond when redirected. Examples include, but are not limited to loud talking, arguing, yelling, or repeated out-of-seat behavior, etc.	
MINOR INFRACTION COUNTS RESET EVERY NINE WEEKS (PK-5). MINOR INFRACTION COUNTS RESET EVERY SEMESTER (6-12).	

R.S. 14:107.4 Unlawful Posting of Criminal Activity for Notoriety and Publicity. It shall be unlawful for a person who is either a principal or accessory to a crime to obtain an image of the commission of the crime using any camera, videotape, photo-optical, photo-electric, or any other image recording device and to transfer that image obtained during the commission of the crime by the use of a computer online service, internet service, or any other means of electronic communication, including but not limited to a local bulletin board service, internet chat room, electronic mail, or online messaging service for the purpose of gaining notoriety, publicity, or the attention of the public.

Second OSS (JDD). After any second out-of-school suspension of a student during the same school year, the principal and the employee designated by the principal to identify behavioral and mental health support services available shall consult on whether the student's behavior could be attributable to behavioral or emotional challenges. If it is determined that the behavior is attributable to behavioral or emotional challenges and rises to the level that supportive services could be beneficial, the principal or his/her

designee and the employee designated for mental and behavioral health assistance shall schedule a conference with the student's parent or legal guardian to discuss the student's behavior and counseling as well as the referral of the student and family to support services or assessment and treatment.
