

Long Term Benefits of Dual Language

English Learners' Long-Term Achievement by Program Model

What does a 2 Way Dual Language program do? It teaches students two languages; their home language and a new language. At Uni Hill, about half of our students have a home language of English, and the other half have a home language of Spanish. All students are learning both languages together, daily. The 2 Way Dual Language program is the most effective according to the [Thomas and Collier Research](#)
