Bright Spots

Top 5 Schools in Each State Beating the Odds in 3rd Grade Reading

Aldeman: At these 255 schools, literacy rates are far higher than their poverty levels would suggest. Is your school a Bright Spot?

An illustration showing two children, a girl and a boy, from behind, looking at an open book. They are positioned over a stylized map of the United States, which is set against a dark blue background with white stars, resembling a night sky. Another closed book is visible on the left.
