

After-School Science Class

This Semester's Theme Time Travelers

- Students will embark on a series of engineering expeditions through time and space, charting the course of innovation from ancient civilizations to the modern age.
- Through a blend of hands-on experimentation, design challenges, and historical inquiry, they'll gain a deeper understanding of how human ingenuity has shaped the world we live in today

STE(A)M Classes for Kids

- Students will explore the connections between science, technology, and arts
- Learn through hands-on experimentation and real-world applications of scientific concepts
- Prepare for the future by developing critical thinking and problem-solving skills
