Instructional Technology Plan - 2026-2029 Instructional Technology Plan**II. Strategic Technology Planning**

Page Last Modified: 11/06/2025

II. Strategic Technology Planning**1. What is the overall district mission?**

Our mission is to provide a dynamic educational environment that prioritizes academic achievement but also encompasses holistic growth. We envision Miller Place School District as a place where students embark on a journey toward their highest ambitions. We aim to establish strong connections among our families, educators, staff, administration and community members who serve as the foundation of support for an outstanding educational environment. Our primary goal is to guide every student towards their unique aspirations while fostering a deep sense of Panther Pride. Through dedication, collaborative efforts, and a commitment to excellence we aim to empower our students to reach their goals, become lifelong learners, possess an unwavering belief in their unique capabilities and emerge as positive contributors to society.

2. What is the vision statement that guides instructional technology use in the district?

1. Students leverage technology to take an active role in choosing, and demonstrating competency in their learning goals and are able to transfer their knowledge to explore emerging technologies.
2. Students recognize the rights, responsibilities, and opportunities of an interconnected digital world, and they act and model in ways that are safe, legal and ethical, such as managing their personal data to maintain digital privacy and security and have an awareness of how data-collection technology impacts their "digital footprint."
3. Students critically curate a variety of resources using digital tools and resources to construct knowledge, produce creative artifacts, and create meaningful learning experiences for themselves and others.
4. Students use a variety of technologies within a design process to identify and solve problems by creating new, useful or imaginative solutions while exhibiting a tolerance for ambiguity, perseverance and the capacity to work with open-ended authentic problems.
5. Students develop and employ strategies for understanding and solving problems in ways that leverage the power of technological methods to develop and test solutions through data analysis.
6. Students communicate clearly and express themselves creatively for a variety of purposes using the platforms, tools, styles, formats and digital media appropriate to their goals.
7. Students use digital tools to broaden their perspectives and enrich their learning by collaborating with others from a variety of backgrounds and cultures and working effectively in teams to explore local and global issues.

3. At the start of the 2026-27 school year, will the district provide a dedicated mobile device for every student in all grades?

Yes
