PROFILE 2026-27

St. Andrew's Schools is an independent PK-12 college preparatory school where students are known, understood, and challenged to reach their personal best. Founded in 1867 by Queen Emma Kaleleonālani, our school is rooted in our Hawaiian and Episcopal heritage, providing a personalized educational experience that empowers every learner to **Kūlia i ka Nu'u**, or Strive for the Highest.

A visionary leader and humanitarian Queen Emma believed education had the power to transform lives. She founded St. Andrew's Priory School for Girls to expand educational opportunities for young women and inspire lives of service, compassion, and purpose. Today, as a thriving coeducational school, we proudly carry forward her enduring legacy by educating students of character who lead with integrity, courage, and aloha.

At St. Andrew's, our personalized approach combines rigorous academics with meaningful relationships, fostering curiosity, creativity, resilience, and global citizenship. Students are encouraged to discover their unique strengths, pursue their passions, and develop the confidence and character to make a positive difference in their communities and beyond.

Across every grade level, learning is engaging, collaborative, and relational. Our Upper School offers a premier academic program featuring inquiry-based, project-based, and experiential learning that challenges students to think critically, communicate effectively, and grow as thoughtful leaders.

Above all, St. Andrew's Schools has a culture of care grounded in an ethic of excellence. We believe every child possesses unique gifts and talents, and our greatest work is helping students discover and cultivate those gifts so they can live lives of meaning and purpose.

Accreditation

St. Andrew's Schools is fully accredited by the Western Association of Schools and Colleges (WASC) and the Hawai'i Association of Independent Schools (HAIS). St. Andrew's Schools is a member of the following: National Association of Independent Schools (NAIS), National Association for the Education of Young Children (NAEYC), National Association of Episcopal Schools (NAES), American Camp Association, The Enrollment Management Association (EMA), and the College Board. St. Andrew's Schools is a member of the National Association of College Admission Counseling (NACAC) and complies with the NACAC "Code of Ethics and Professional Practices."

Academic Program Highlights

Global Leadership Program and Distinction in Global Leadership

Through our Global Leadership Program students engage in the world around them by actively investigating global issues that affect humanity. As a result they commit to using their knowledge and skills to take action to create a world that is more humane and just.

Global Leadership Learning Outcomes include such competencies as investigating the world; recognizing, articulating, and explaining multiple perspectives; and taking action through networking, collaboration, negotiation, and/or compromise. Students may earn a Distinction in Global Leadership by fulfilling the general requirements for graduation plus the following:

- Four years of any World Language (or level V/AP);
- At least two years in a service-oriented club, class or student government position;
- Enroll in a self-selected suite of courses among these offerings - Global Action, Model UN and Global Affairs, World Cultures and Religions, Practical Theology, Controversies, Philosophy, AP Environmental Science, AP US Government and Politics, and Design Thinking;
- Completion of the St. Andrew's in the City Senior Internship project and an Independent Inquiry project aligned to the Global Leadership Learning Outcomes (GLLOs);
- Exhibitions of learning aligned to GLLOs at annual Academic and Exhibition Fairs.

St. Andrew's in the City Program: "Downtown Honolulu is the New Classroom"

St. Andrew's Schools is footsteps from the seat of government, businesses, nonprofit organizations, arts and cultural centers and healthcare systems. Our St. Andrew's in the City Program leverages the school's downtown Honolulu location to position the next generation of leaders through networking, mentoring, and internships in the heart of the city. Sophomores visit a variety of workplaces, hear from guest speakers, learn from professionals, and begin to consider their career interests. St. Andrew's in the City juniors undergo a series of assessments to better understand their strengths and connect their abilities with potential professions and college paths. St. Andrew's in the City seniors receive a personally tailored workplace learning experience suited to their interests, talents, and aspirations, with a workplace mentor and a school-based life and career coach. The St. Andrew's in the City program provides authentic workplace experience as a tiered extension of the classroom, enabling students to build community relationships, learn from mentors, explore careers, and become better prepared for the challenges and opportunities that await them in college and throughout life.

Science Technology Engineering Art Math (STEAM) Curriculum

St. Andrew's Schools' STEAM:Ed Up! program integrates science, technology, engineering, art, and math to challenge students to solve interesting problems and engage in devising solutions to real-life issues in creative and innovative ways. Students use design thinking, engineering design process (EDP), and the scientific method to frame questions, ideate, design, build and test solutions. Students reflect on their progress and use an iterative learning approach to improve their work and build their meta-cognitive skills. Typically, half of our graduates choose to major in a STEM field in college.

Independent Inquiry

Independent Inquiry allows students to pursue a sustained line of inquiry on a topic of interest with the guidance of a faculty mentor. Students are engaged in a sustained, iterative process of inquiry, critical thinking, and problem-solving by investigating a student-generated central question. Students present their findings to a wider audience through our annual Academic and Exhibition Fairs.

Arizona State University (ASU) Partnership

St. Andrew's Schools is a collaborative partner with ASU to offer diverse and rigorous credit-bearing online high school (ASU) and collegiate courses for students in grades 9-12.

Hawai'i Pacific University Partnership

Our college advancement program allows qualified students to take collegiate classes at Hawai'i Pacific University with no additional tuition cost.

Junior Reserve Officer Training Corps (JROTC)

St. Andrew's Schools offers this opportunity on St. Louis School's campus through its JROTC program.

One Schoolhouse Partnership

St. Andrew's Schools partners with One Schoolhouse to offer diverse and rigorous credit-bearing online courses to qualified students.

About Our High School

St. Andrew’s Schools welcomes young people from all faiths and nationalities to an educational community that encourages students to discover and develop their own talents, interests, and confident voices. In a caring culture of mutual respect and understanding, students are challenged to achieve their personal best.

Through student-centered social-emotional programs such as One Circle Foundation and our RULER program from Yale’s Center of Emotional Intelligence, our students learn how to develop their self-awareness and empathy toward others, growing into ethical and moral community leaders, locally and globally. They build inner strength to be agile in an ever-changing world, persist in the face of adversity in pursuit of their goals, and serve others with kindness and compassion.

The personalized educational program allows students to uncover their unique strengths, passions, and interests through discovery, deep inquiry, practice, creation, and self-reflection in both disciplinary and interdisciplinary studies. St. Andrew’s students have the opportunity to achieve a distinction in Global Leadership by completing our Global Leadership Outcomes and to accelerate their learning through our dual credit partnership program with Arizona State University and Hawai’i Pacific University. In addition, each high school student dives further into their chosen area of interest through independent research projects and participation in our innovative St. Andrew’s in the City internship program. The result is confident, self-directed, productive, compassionate, ethical, civic-minded learners.

Graduation Requirements	Honors and Advanced Placement Courses
English 4	Note: Students are advised not to take more than two Advanced Placement courses simultaneously.
Social Studies 3½	
Mathematics 3	English
Science 3	English 9 Honors
World Language 3	English 10 Honors
Physical Education 2	American Literature Honors
Visual/Performing Arts 2	British and World Literature Honors
St. Andrew’s in the City 1½	AP English Literature and Composition
Religious Studies 1	World Language
Independent Inquiry ½	AP Japanese Language and Culture
Other Courses ½	AP Spanish Language and Culture
Total minimum credits required for graduation: 24.	Mathematics
Calendar	Algebra 1 Honors
Two semesters of approximately equal length. Schedules are personalized to augment learning. Students will be learning primarily face-to-face.	Geometry Honors
	Algebra II with Trigonometry Honors
	Pre-Calculus Honors
	Calculus Honors
	AP Calculus AB
	AP Computer Science Principles
	AP Precalculus
	Science
	Biology Honors
	Chemistry Honors
	Physics Honors
	AP Biology
	AP Chemistry
	AP Environmental Science
	Social Studies
	AP US History
	AP US Government and Politics
	AP World History: Modern
	Visual Arts
	Photography I - II Honors
	Photography Portfolio Art I-III Honors
	Portfolio Art I-III Honors
	Studio Art I, II Honors

Grade Point Average (GPA)

The GPA is computed annually and cumulatively. Physical Education grades are included in the GPA. GPA is based on a traditional 4.0 scale (A = 4.000, A- = 3.667, B+ = 3.333, B = 3.000, B- = 2.667, C+ = 2.333, C = 2.000, C- = 1.667, D+ = 1.333, D = 1.000, D- = .667, F = 0). Advanced Placement, Arizona State University, and Hawai’i Pacific University course are given an additional point value and are weighted on a 5.0 scale. For example, a “B” counts as an “A” and a “C” counts as a “B.” Grades lower than a “C” are not weighted.

Standardized Testing Results	Advanced Placement (AP) Test Results
Class of 2026	Class of 2026
Mean Total Score: 1080	
Evidence-Based Reading and Writing	# of test taking students: 9
Math	Total # of tests: 22
Mean: 572	Mean score: 3.0
% of students who scored 600 and higher: 33%	% of students with scores >3: 44%
22%
