- Lee County Middle School East
- Lee County High 9th Grade Campus
- Lee County High School

From: Lee County Board of Education
Subject: Asbestos Management Plan Annual Notification of Availability

To fully comply with federal regulations concerning the Asbestos Hazard Emergency Response Act (AHERA), all facilities in the Lee County School System have been inspected for friable and nonfriable asbestos containing building materials. All documentation is contained in the school's Asbestos Management Plan. A copy of this plan is located in the administrative office of each school as well as in the Plant Operations Office. This plan is available for your inspection upon request. Individuals desiring a copy of the plan may receive one. A nominal fee will be charged to cover reproduction costs.

As always, the Lee County School System is pleased to comply with all local, state and federal regulations. Our desire to provide a quality education includes the provision of this education within a setting that is comfortable, accommodating, and environmentally safe.

NON-DISCRIMINATION STATEMENT

The Lee County Board Of Education does not discriminate on the basis of race, color, national origin, sex, or handicap in educational programs, activities, and employment. The Lee County Board of Education is an equal opportunity employer.
