

COBIS School Improvement Programme (CSIP)

Enhance Your School
Improvement Journey

What is CSIP?

The COBIS School Improvement Programme (CSIP) is a structured, developmental approach to school improvement for ambitious internationally-minded schools worldwide.

CSIP has been designed to provide Principals and Senior Leadership Teams with protected time and structured support to reflect on their school's practice against internationally recognised standards.

The course supports schools in understanding key compliance, safeguarding, governance, leadership and school improvement responsibilities within an international school context.

Why should your school engage with CSIP?

- Reach and connect with other professionals, share and exchange your expertise
- Access a guided school improvement journey through key developmental modules
- Take part in a cohort-based, collaborative learning model
- Connect with a global professional learning community
- Gain a COBIS certificate of successful completion

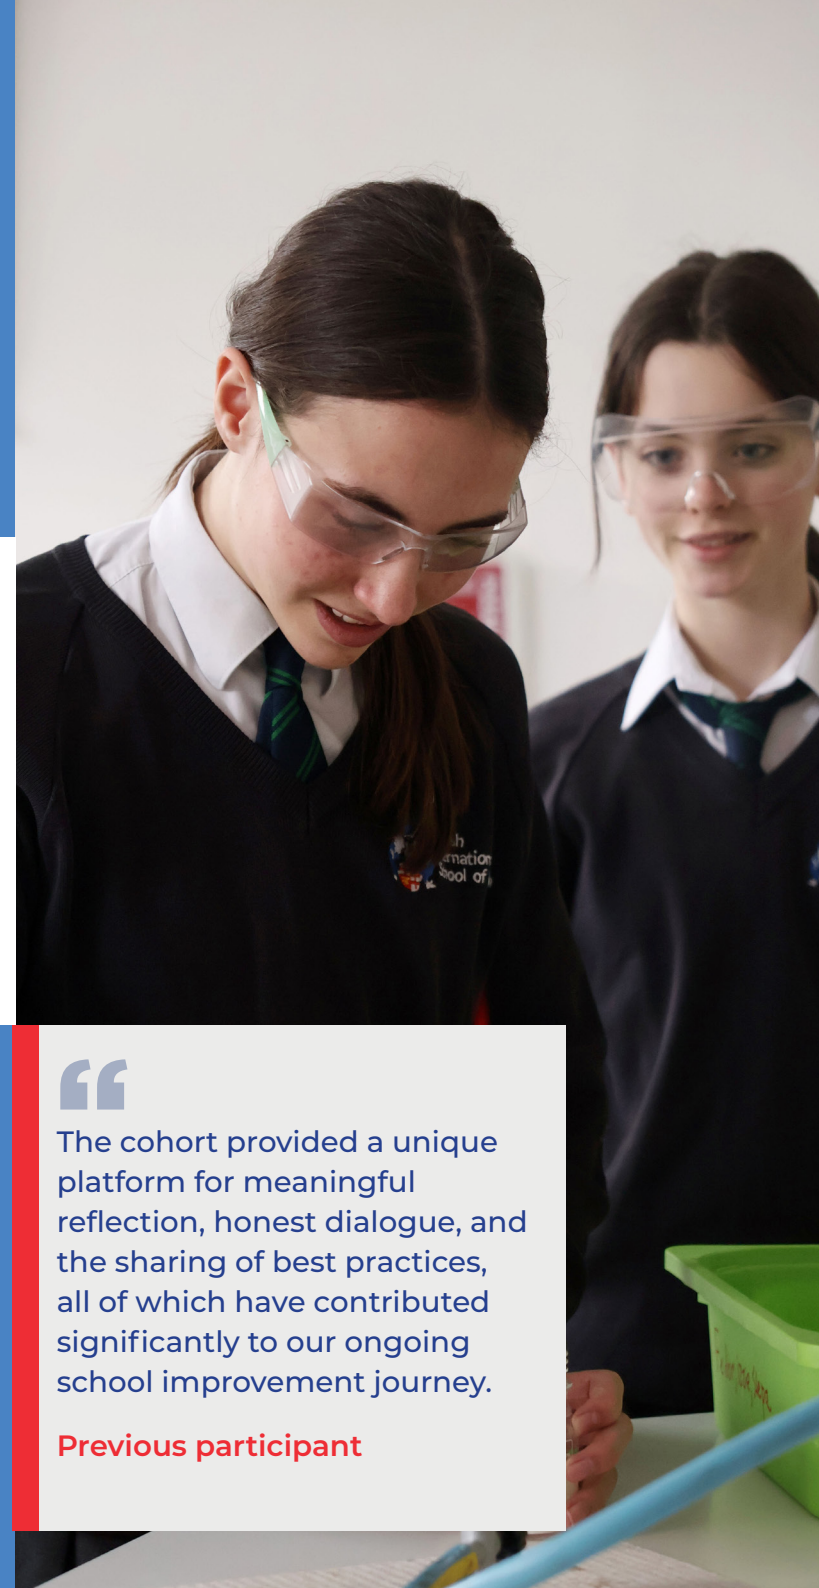

Key Information

- **Delivery:** 8 live, online sessions, 7 modules, a collaborative online platform, and an individual school presentation based around practical implementation of course content.
- **Session Themes Include:** Safeguarding & Safer Recruitment; Leadership & Governance; Health & Safety; Learning & Teaching; Student Wellbeing
- **Participants:** Each participating school nominates 3 members of the leadership team to take part in the programme

The cohort provided a unique platform for meaningful reflection, honest dialogue, and the sharing of best practices, all of which have contributed significantly to our ongoing school improvement journey.

Purpose of the course:

As school leaders, you are constantly balancing strategic direction, operational demands, and the wellbeing of your community. This course has been designed to support you in:

- Reflecting on your school's current practice and how closely it aligns with international standards
- Identifying areas of strength and areas for further development
- Exploring how policies, systems, and leadership approaches work in practice
- Supporting ongoing school improvement in a way that is realistic and context-specific
- Engaging in professional dialogue with other school leaders

There is no expectation of perfection. Schools join this course at different stages of their development journey, and the emphasis throughout is on reflection, learning, and next steps, rather than compliance.

Ready to Apply? Eligibility Criteria:

- Are you energised by sharing your expertise with others?
- Are you collaborative, inclusive and ambitious? Do you enjoy learning from and connecting with colleagues worldwide?
- Do you want to expand your global network by engaging with the growing family of prestigious schools worldwide?
- Does your school provide a high-quality international education using a curriculum such as Cambridge, MYP, PYP, iGCSE, A-Level or IB?
- Do you want to strengthen and enhance safer recruitment, safeguarding, and governance practices?
- Do you value wellbeing, pastoral care and professional and personal development and enrichment for all students and staff?
