Remote Learning Day(s) Directions

Students can substitute up to 5 absences per semester (a max of 10 per year) with a remote learning day by meeting the remote learning participation benchmarks listed in policy. This would result in the student being counted as present for the day(s) they participate remotely.

- To be marked present, work must be submitted to the student's teacher within 2 days of absence. Locate the remote learning work on the Sweet Apple website.
- Students may not use a remote learning day on a test day.
- Parent/guardian must notify Cortney Featherston (featherston@fultonschools.org) and the student's teacher in advance to the start of the instructional day.
- For security reasons, students who are out of the country may not participate in remote learning.
