

Getting Started with Your District Issued Device

Your child in grades 3 – 12 will be provided with a Lenovo Laptop, USB-C charger, and carrying case to take to and from school. Here are a few quick tips to get you started.

1. Power on your device by pushing the power button on the right side.

2. Be sure your device is connected to WIFI. While in school, it will automatically connect to “Brentwood WIFI.” While at home, click the WIFI icon on the bottom right of the login screen, locate the name of your network and enter the password.
3. Log in to your device. Your username will be your Brentwood issued email address in the format ab012345@bufsd.org. For example, if your name is John Doe and your Student ID is 098765, your email address will be jd098765@bufsd.org. Your password will be the password provided to you from your school to login to Teams, My Apps, and your eSchoolData student portal.
4. Once you are logged in, you’ll see Microsoft Teams, My Apps and everything needed to get started both in school and at home.
5. If you experience any issues with your device including but not limited to Wifi issues, physical damage, or certain apps not working, please see your school’s School Communications Aide.
