

Embed Standards-Based Learning and Grading to enhance student agency and build upon current district instructional models.

Strategy I, Action Plan 4

Develop quality indicators for College and Career Pathways.

Strengthen students' sense of belonging and ownership of learning to support engagement, growth, and success.

Monitor and communicate changes in educational policy impacting public schools and engage community members, business groups and local agencies to further legislative advocacy in support of all students.

Engage community stakeholders to collaboratively develop the next iteration of the NKC Schools strategic plan, ensuring it reflects the shared values, collective aspirations, and evolving needs of the district.

APPROVED | JUNE 23, 2026

Develop a comprehensive staffing model that is flexible, equitable, efficient, and addresses the diverse needs of schools and departments.

Recruit and retain highly-qualified staff by strengthening differentiators to give NKC Schools a competitive advantage.

Allocate resources to support the education of all students by maximizing revenue, aligning expenditures to meet priorities, and controlling costs while maintaining financial sustainability.

Research and implement best practices for process improvement by creating collaborative, cross-functional teams, including appropriate stakeholders, focused on operational efficiency.

Ensure the operational and debt service levies support current and future staffing and operational needs which positively impact learning and working environments.
