Promulgation

This plan has been developed in accordance with the amended New York State Labor Law section 27-c and New York State Education Law paragraph m of subdivision 2 of section 2801-a (as amended by section 1 of part B of chapter 56 of the laws of 2016), as applicable.

This plan has been developed with the input of the Civil Service Employees' Association (CSEA) as required by the amended New York State Labor Law.

No content of this plan is intended to impede, infringe, diminish, or impair the rights of us or our valued employees under any law, rule, regulation, or collectively negotiated agreement, or the rights and benefits which accrue to employees through collective bargaining agreements, or otherwise diminish the integrity of the existing collective bargaining relationship.

This plan has been approved in accordance with requirements applicable to the agency, jurisdiction, authority, or district, as represented by the signature of the authorized individual below.

As the authorized official of **Clarence Central School District**, I hereby attest that this plan has been developed, approved, and placed in full effect in accordance with S8617B/A10832 which amends New York State Labor Law section 27-c and New York State Education Law paragraph m of subdivision 2 of section 2801-a (as amended by section 1 of part B of chapter 56 of the laws of 2016), as applicable, to address public health emergency planning requirements.

Dr. Patricia Grupka
June 23, 2025

Purpose, Scope, Situation Overview, and Assumptions

Purpose

This plan has been developed in accordance with the amended New York State Labor Law section 27-c and New York State Education Law paragraph m of subdivision 2 of section 2801-a (as amended by section 1 of part B of chapter 56 of the laws of 2016), as applicable. These laws were amended by the passing of legislation S8617B/A10832 signed by the Governor of New York State on September 7, 2020, requires public employers to adopt a plan for operations in the event of a declared public health emergency involving a communicable disease. The plan includes the identification of essential positions, facilitation of remote work for non-essential positions, provision of personal protective equipment, and protocols for supporting contact tracing.

Scope

This plan was developed exclusively for and is applicable to Clarence Central School District. This plan is pertinent to a declared public health emergency in the State of New York which may impact our operations; and it is in the interest of the safety of our employees and contractors, and the continuity of our operations that we have promulgated this plan.

Situation Overview

On March 11, 2020 the World Health Organization declared a pandemic for the novel coronavirus which causes the COVID-19 severe acute respiratory syndrome. This plan has been developed in accordance with amended laws to support continued resilience for a continuation of the spread of this disease or for other infectious diseases which may emerge and cause a declaration of a public health emergency.

The health and safety of our employees and contractors is crucial to maintaining our mission essential operations. We encourage all employees and contractors to use [CDC Guidance for Keeping Workplaces, Schools, Homes, and Commercial Establishments Safe](#). The fundamentals of reducing the spread of infection include:

- Using hand sanitizer and washing hands with soap and water frequently, including:
 - After using the restroom
 - After returning from a public outing
 - After touching/disposing of garbage
 - After using public computers, touching public tables, and countertops, etc.
- Practice social distancing when possible
- If you are feeling ill or have a fever, notify your supervisor immediately and go home
- If you start to experience coughing or sneezing, step away from people and food, cough or sneeze into the crook of your arm or a tissue, the latter of which should be disposed of immediately
- Clean and disinfect workstations as needed
- Other guidance which may be published by the CDC, the State Department of Health, or County health officials

Planning Assumptions

This plan was developed based on information, best practices, and guidance available as of the date of publication. The plan was developed to largely reflect the circumstances of the current Coronavirus pandemic but may also be applicable to other infectious disease outbreaks.

The following assumptions have been made in the development of this plan:

- The health and safety of our employees and contractors, and their families, is of utmost importance
- The circumstances of a public health emergency may directly impact our own operations
- Impacts of a public health emergency will take time for us to respond to, with appropriate safety measures put into place and adjustments made to operations to maximize safety
- The public and our constituency expects us to maintain a level of mission essential operations
- Resource support from other jurisdictions may be limited based upon the level of impact the public health emergency has upon them
- Supply chains, particularly those for personal protective equipment (PPE) and cleaning supplies, may be heavily impacted, resulting in considerable delays in procurement
- The operations of other entities, including the private sector (vendors, contractors, etc.), non-profit organizations, and other governmental agencies and services may also be impacted due to the public health emergency, causing delays or other disruptions in their services
- Emergency measures and operational changes may need to be adjusted based upon the specific circumstances and impacts of the public health emergency, as well as guidance and direction from public health officials and the governor
- Per S8617B/A10832, 'essential employee' is defined as a public employee or contractor that is required to be physically present at a work site to perform their job
- Per S8617B/A10832, 'non-essential employee' is defined as a public employee or contractor that is not required to be physically present at a work site to perform their job
- The NYS Department of Health COVID-19 toolkit guidance, updates will determine if school staff are essential workers.

Concept of Operations

The Superintendent of Clarence Central School District, their designee, or their successor holds the authority to execute and direct the implementation of this plan. Implementation, monitoring of operations, and adjustments to plan implementation may be supported by additional personnel, at the discretion of the Superintendent. The district will utilize numerous communication channels to inform parents, students, teachers, administrators, support staff and the community in general of procedures and protocols with respect to the public health emergency.

Upon the determination of implementing this plan, all employees and contractors of Clarence Central School District shall be notified by the email and text messaging system, with details provided as possible and necessary, with additional information and updates provided on a regular basis. All district employees, parents and guardians, and the Board of Education will be notified of pertinent operational changes by way of the email and text messaging system.

Other interested parties, such as vendors, will be notified by phone and/or email as necessary. The Business Administrator will maintain communications with the public and constituents as needed throughout the implementation of this plan.

The Superintendent of Clarence Central School District, their designee, or their successor will maintain awareness of information, direction, and guidance from public health officials and the Governor's office, directing the implementation of changes as necessary.

Upon resolution of the public health emergency, the Superintendent of Clarence Central School District, their designee, or their successor will direct the resumption of normal operations or operations with modifications as necessary.

Mission Essential Functions

When confronting events that disrupt normal operations, Clarence Central School District is committed to ensuring that essential functions will be continued even under the most challenging circumstances.

Essential functions are those functions that enable an organization to:

1. Maintain the safety of employees, contractors, and our constituency
2. Provide vital services
3. Provide services required by law
4. Sustain quality operations
5. Uphold the core values of Clarence Central School District

The Clarence Central School District has identified as critical only those priority functions that are required or are necessary to provide vital services. During activation of this plan, all other activities may be suspended to enable the organization to concentrate on providing the critical functions and building the internal capabilities necessary to increase and eventually restore operations. Appropriate communications with employees, contractors, our constituents, and other stakeholders will be an ongoing priority.

Essential functions are prioritized according to:

- The time criticality of each essential function
- Interdependency of a one function to others
- The recovery sequence of essential functions and their vital processes

Priority 1 identifies the most essential of functions, with priority 4 identifying functions that are essential, but least among them.

The mission essential functions for Clarence Central School District have been identified as:

Essential Function	Description
Superintendent of Schools	Oversees and plans. Assigns critical functions assuring compliance with all CDC, DOH and NYSED requirements. Establishes communication with staff and parents to execute and standardize district goals. Communicates with the Board of Education directly.
Business Administrator	Liaison for the Superintendent of Schools. Coordinates and supports the goals of the District. Oversees the functions of the Business Office. Communicates directly with administration to assist with planning and daily functions to achieve District goals and maintain safety equipment and supplies.
All Administrators	Coordinates functions delegated by the Superintendent of Schools. Assigns tasks to facilitate and accomplish district goals. Oversees personnel assigned to tasks. Ensures critical functions are being performed as necessary. Provides regular progress reports on daily activities necessary to accomplish district goals. When directed by the Superintendent of Schools, the administration is responsible for communicating and updating employees in district policy.
Director of Facilities and Operations	Coordinates functions with the Superintendent of Schools, Business Official, Administration and Staff. Responsible for staffing, maintenance activities, custodial duties including ordering supplies, training, scheduling to meet the needs of the district. Instructs and informs staff of district policy and procedures including personal protection, cleaning procedures and methods of reporting and receiving issues and concerns that may affect or enhance safety procedures. Maintains a current inventory of supplies and safety equipment and provides staff and services as needed. Inventory includes maintaining a cache of necessary supplies and equipment through reordering and replenishing stock so as not to fall short of critical supplies. Schedules outside maintenance activities. Ensures third party contractors and all staff know and follow all school, CCD, DOL and DOH policies while on school district property.

Technology Department	Provides support to ensure critical infrastructure is in place to provide effective building support and educational support securely. Works directly with the Superintendent of Schools and Administration staff to ensure communication and internet stability. Provides the necessary equipment and approved software to staff and students to perform the functions of each necessary school sector to maintain building maintenance, day to day operations, and educational needs.
Nurses	Assists with the goals of the district. Provide medical insight and support to help maintain a healthy school population. Assists with planning and achieving district goals. Provides support and assistance to carry out orders from the Medical Director, CDC, DOH and NYSED regulations.
Building Secretaries	Staff will continue to perform vital services as directed by the Superintendent of Schools and directed by their school administrator. The District will determine need based on individual circumstances and can be utilized in school or remotely.
Maintenance Staff	Maintenance staff will perform vital services to keep and maintain essential equipment for onsite and remote learning. Maintenance staff and work will be overseen by the Director of Facilities and Operations. Staff will be informed of school procedures and adhere to all personal safety protocols required by the CDC, DOL (PESH), and DOH at all times.
Custodial Staff	Custodial staff will work as directed by the Director of Facilities and Operations and Custodial Supervisor. The Director of Facilities and Operations and Custodial Supervisor will oversee and ensure school buildings are being cleaned properly. Custodial staff has received pandemic awareness training. Training provided essential information about communicable diseases.
Educational	The Assistant Superintendent for Instruction and Curriculum will work with the Superintendent and Administration to determine the level of on-site education and or implement the District Remote Learning Plan.
Outside Contractors	Outside contractors will be scheduled and work will be performed with the oversight of the Director of Facilities and Operations. All outside contractors will notify the Director of Facilities when they arrive on-site. Outside contractors will be informed of district procedures and policy before they are allowed to work on the premises. Companies performing work on site will provide their employees with the proper PPE to comply with District policy.
Food Service	All Food Service operations will be determined by the Business Administrator. All District protocols will be initiated by the District Food Service contractor.
Transportation	Transportation will provide services directed by the Business Administrator. The Transportation Coordinator will supervise operations. The District will provide safe and secure transportation based on the needs of the District and learning environment. Records will be maintained accurately to ensure bus safety procedures are being followed. The District will continually inform staff and parents of changes to procedures as necessary.

B.O.E	The Board of Education and Superintendent of Schools will dictate school policy and procedures.
Outside Deliveries	Deliveries will be coordinated with the Director of Facilities and Operations, Custodial Supervisor, and Building Custodians. The Director of Facilities will inform companies of District Policy and procedures in advance. All delivery agents will be required to notify the district prior to arrival on District and strictly adhere to district policy while on site. Employers will be required to provide their employees with the proper PPE to work safely while on site.
Employee Assistance Program (EAP) & Family Support Center (FSC)	We will ensure that the District's EAP, FSC and Special Education Department is on high alert as mental health issues for students, faculty and staff need to be managed.

Essential Positions

Each essential function identified above requires certain positions on-site to effectively operate. The table below identifies the positions or titles that are essential to be staffed on-site for the continued operation of each essential function. Note that while some functions and associated personnel may be essential, some of these can be conducted remotely and do not need to be identified in this section.

Essential Function	Essential Positions/Titles	Justification for Each
Information Technology	Technology Coordinator	The IT manager establishes all priorities for IT task and organizes staff. IT staff members provide support in setting up hardware and software, network management, and help desk support.
Administration and Oversight	Superintendent of Schools	The Superintendent is the decision-maker for the entire district.
Operations	Business Administrator	Business Administrator ensures all essential functions are maintained.
Education	Assistant Superintendent for Instruction and Curriculum	The Assistant Superintendent for Instruction and Curriculum determines the educational plan.
Facilities	Director of Facilities and Operations and Operations	The Director of Facilities and Operations maintains the necessary level of cleaning and sanitizing.
Administration	Principals, Assistant Principals, Directors, Supervisors	The Principals, Assistant Principals, and Directors are the liaisons between students, families, and employees in the building.
Cleaning and Sanitizing	Buildings and Grounds Staff, Custodial Maintenance, and Laborers and Grounds man	Performs all cleaning and sanitization and necessary upkeep of the buildings.

Support	District Clerical Staff	Provides necessary support for all Administrators.
Health Services	Nursing Coordinator	Directs all Health Services.

Reducing Risk Through Remote Work and Staggered Shifts

Through assigning certain staff to work remotely and by staggering work shifts, we can decrease crowding and density at work sites and on public transportation.

Remote Work Protocols

Non-essential employees and contractors able to accomplish their functions remotely will be enabled to do so at the greatest extent possible. Working remotely requires:

1. Identification of staff who will work remotely
2. Approval and assignment of remote work
3. Equipping staff for remote work, which may include:
 - a. Internet capable laptop
 - b. Necessary peripherals
 - c. Access to VPN and/or secure network drives
 - d. Access to software and databases necessary to perform their duties
 - e. A solution for telephone communications
 - i. Note that phone lines may need to be forwarded to off-site staff

The Superintendent of Schools and the District Administrative Staff will determine the level of remote working for all district employees in conjunction with all NYSDOH guidelines.

District will assess needs in the following areas:

- **Mobile Device Assessments:**
 - Survey departmental staff to determine who will need devices at home to maintain operational functions as well as instructional services
 - Conduct a cost analysis of technology device needs
- **Internet Access Assessments:**
 - Survey departmental staff to determine the availability of viable existing at-home Internet service
 - Conduct a cost analysis of Internet access needs

Providing Mobile Devices and Internet Access:

- To the extent practicable, decide upon, develop procurement processes for, order, configure, and distribute, if and when available, appropriate mobile devices to those determined to be in need.
- To the extent practicable and technically possible, decide upon, develop procurement processes for, and when available, provide appropriate Internet bandwidth to those determined to be in need. WIFI hotspots and residential

commercial Internet options will be evaluated for anticipated effectiveness in particular situations.

Technology & Connectivity for Students - Mandatory Requirements:

- To the extent possible, have knowledge of the level of access to devices and high-speed broadband all students and teachers have in their places of residence;
- To the extent practicable, address the need to provide devices and internet access to students and teachers who currently do not have sufficient access; and
- Provide multiple ways for students to participate in learning and demonstrate mastery of Learning Standards in remote or blended models, especially if all students do not yet have sufficient access to devices and/or high-speed internet.

Mobile Devices Delivery:

Technology offers schools and districts increased options for continuing learning during extended closures. Technology can be leveraged in different ways to meet local needs, including but not limited to:

- Communication (e-mail, phone, online conferencing, social media)
- Teacher/student and student/student interaction (office hours, check-ins, peer collaboration)
- Instruction (video/audio recordings of instruction, instructional materials, synchronous distance learning, asynchronous online courses)
- Learning Materials and Content (digital content, online learning activities)
- Additional Technology Devices Assessments:
 - Identify students' technology needs to include adaptive technologies
 - Use the Asset Tracking Management System procedures to check out all mobile devices
 - If a shutdown happens abruptly, plan a pick-up time and location, and arrange to deliver devices to those who cannot pick them up.
- Providing Multiple Ways for Students to Learn
 - Support instructional programs as needed in preparation of non-digital, alternative ways for students to participate in learning and demonstrate mastery of Learning Standards in remote or blended models in circumstances in which students do not yet have sufficient access to devices and/or high-speed internet.

Staggered Shifts

Implementing staggered shifts may be possible for personnel performing duties which are necessary to be performed on-site but perhaps less sensitive to being accomplished only within core business hours. As possible, management will identify opportunities for staff to work outside core business hours as a strategy of limiting exposure. Regardless of changes in start and end times of shifts, Clarence Central School District will ensure that employees are provided with their typical or contracted minimum work hours per week. Staggering shifts requires:

1. Identification of positions for which work hours will be staggered
2. Approval and assignment of changed work hours

The Business Administrator and Director of Facilities will work with the Superintendent of Schools or a designee to formulate a calendar that schedules employees based on the needs of the District.

Personal Protective Equipment

The use of personal protective equipment (PPE) to reduce the spread of infectious disease is important to supporting the health and safety of our employees and contractors. PPE which may be needed can include:

- Masks
- Face shields
- Gloves
- Disposable gowns or aprons

Note that while cleaning supplies are not PPE, there is a related need for cleaning supplies used to sanitize surfaces, as well as hand soap and hand sanitizer. The Coronavirus pandemic demonstrated that supply chains were not able to keep up with increased demand for these products early in the pandemic. As such, we are including these supplies in this section as they are pertinent to protecting the health and safety of our employees and contractors.

Protocols for providing PPE include the following:

1. Identification of need for PPE based upon job duties and work location
2. Procurement of PPE
 - a. As specified in the amended law, public employers must be able to provide at least two pieces of each required type of PPE to each essential employee during any given work shift for at least six months
 - b. Public employers must be able to mitigate supply chain disruptions to meet this requirement
3. Storage of, access to, and monitoring of PPE stock
 - a. PPE must be stored in a manner which will prevent degradation
 - b. Employees and contractors must have immediate access to PPE in the event of an emergency
 - c. The supply of PPE must be monitored to ensure integrity and to track usage rates

The Director of Facilities and Operations and the Custodial Supervisor will be responsible for ensuring the proper PPE is available at all buildings for required applications. The District will work to ensure we maintain a six-month supply of PPE as directed above for all faculty, students.

Surplus PPE will be stored in a dry, secured central location. Access to the surplus PPE can only be made by the Director of Facilities and Operations or the Custodial Supervisor as this will ensure the accurate accountability of all supplies on hand. The Custodial Supervisor will be responsible for keeping accurate records and reporting.

Staff Exposures, Cleaning, and Disinfection

Staff Exposures

Staff exposures are organized under several categories based upon the type of exposure and presence of symptoms. Following CDC guidelines, we have established the following protocols:

- A. If employees or contractors are exposed to a known case of communicable disease that is the subject of the public health emergency (defined as a 'close contact' with someone who is confirmed infected, which is a prolonged presence within six feet with that person):
 - 1. Potentially exposed employees or contractors who do not have symptoms should remain at home or in a comparable setting and practice social distancing for a period determined by CDC/public health guidance for the communicable disease in question.
 - a. As possible, these employees will be permitted to work remotely during this period of time if they are not ill.
 - b. All necessary parties will be notified of staff exposure through contact tracing.
 - c. See the section titled Documentation of Work Hours and Locations for additional information on contact tracing.
 - 2. CDC guidelines for COVID-19 provide that critical essential employees may be permitted to continue work following potential exposure, provided they remain symptom-free and additional precautions are taken to protect them, other employees and contractors, and our constituency/public.
 - a. Additional precautions will include the requirement of the subject employee or contractor, as well as others working in their proximity, to wear appropriate PPE at all times to limit the potential of transmission.
 - b. In-person interactions with the subject employee or contractor will be limited as much as possible.
 - c. Work areas in which the subject employee or contractor are present will be disinfected according to current CDC/public health protocol at least every hour, as practical. See the section on Cleaning and Disinfection for additional information on that subject.
 - d. If at any time they exhibit symptoms, refer to item B below.
 - e. The Superintendent of School, or his designee, in the organization is the decision-maker in these circumstances and who is responsible for ensuring these protocols are followed.
- B. If an employee or contractor exhibits symptoms of the communicable disease that is the subject of the public health emergency:
 - 1. Employees and contractors who exhibit symptoms in the workplace should be immediately separated from other employees, customers, and visitors. They should immediately be sent home with a recommendation to contact their physician.
 - 2. Employees and contractors who exhibit symptoms outside of work should notify their supervisor and stay home, with a recommendation to contact their physician.

3. Employees should not return to work until they have met the criteria to discontinue home isolation per CDC/public health guidance and have consulted with a healthcare provider.
 4. **Clarence Central School District** will not require sick employees to provide a negative test result for the disease in question or healthcare provider's note to validate their illness, qualify for sick leave, or return to work unless there is a recommendation from the CDC/public health officials to do so.
 5. CDC criteria for COVID-19 provides that persons exhibiting symptoms may return to work if at least 24 hours have passed since the last instance of fever without the use of fever-reducing medications. If the disease in question is other than COVID-19, CDC and other public guidance shall be referenced.
 6. The Director of Human Resources in the organization must be informed in these circumstances and who is responsible for ensuring these protocols are followed.
- C. If an employee or contractor has tested positive for the communicable disease that is the subject of the public health emergency:
1. Apply the steps identified in item B, above, as applicable.
 2. Areas occupied for prolonged periods of time by the subject employee or contractor will be closed off.
 - a. CDC guidance for COVID-19 indicates that a period of 24 hours is ideally given before cleaning, disinfecting, and reoccupation of those spaces will take place. If this time period is not possible, a period of as long as possible will be given. CDC/public health guidance for the disease in question will be followed.
 - b. Any common areas entered, surfaces touched, or equipment used shall be cleaned and disinfected immediately.
 - c. See the section on Cleaning and Disinfection for additional information on that subject.
 3. Identification of potential employee and contractor exposures will be conducted
 - a. If an employee or contractor is confirmed to have the disease in question, the Superintendent or his designee should inform all contacts of their possible exposure. Confidentiality shall be maintained as required by the Americans with Disabilities Act (ADA).
 - b. Apply the steps identified in item A, above, as applicable, for all potentially exposed personnel.

We recognize there may be nuances or complexities associated with potential exposures, close contacts, symptomatic persons, and those testing positive. We will follow CDC/public health recommendations and requirements and coordinate with our local public health office for additional guidance and support as needed.

Cleaning and Disinfecting

CDC/public health guidelines will be followed for cleaning and disinfection of surfaces/areas. Present guidance for routine cleaning during a public health emergency includes:

1. As possible, employees and contractors will clean their own workspaces in the beginning, middle, and end of their shifts, at a minimum, in conjunction with District custodial staff.
 - a. High traffic/high touch areas and areas which are accessible to the public/constituents will be disinfected at least hourly.
 - b. The Custodial Supervisor under supervision from the Director of Facilities and Operations will coordinate and establish cleaning guidelines and schedules for all cleaners to cover the common areas listed above.
2. Staff tasked with cleaning and disinfecting areas will be issued and required to wear PPE appropriate to the task.
3. Soiled surfaces will be cleaned with soap and water before being disinfected.
4. Surfaces will be disinfected with products that meet EPA criteria for use against the virus in question and which are appropriate for that surface.
5. Staff will follow instructions of cleaning products to ensure safe and effective use of the products.

Employee and Contractor Leave

Public health emergencies are extenuating and unanticipated circumstances in which Clarence Central School District is committed to reducing the burden on our employees and contractors. The Families First Coronavirus Response Act provided requirements related to the COVID-19 pandemic, which form the policies outlined below. This policy may be altered based upon changes in law or regulation, as applicable.

Additional provisions may be enacted based upon need and the guidance and requirements in place by federal and state employment laws, FMLA, executive orders, and other potential sources.

Contractors, either independent or affiliated with a contracted firm, are not classified as employees of Clarence Central School District, and as such are not provided with paid leave time by Clarence Central School District unless required by law.

Documentation of Work Hours and Locations

In a public health emergency, it may be necessary to document work hours and locations of each employee and contractor to support contact tracing efforts. Identification of locations shall include on-site work, off-site visits.

This information may be used by Clarence Central School District to support contact tracing within the organization and may be shared with local public health officials.
