

Connecting Health, Education, and Community

What we provide at our school based locations:

Medical Services

- * School Physicals
- * Immunizations
- * Acute illness visits
- * Asthma treatment and prevention
- * Sports Physicals.

Dental Services

- * Cleanings and X-rays .
- * Fillings and extractions.
- * Oral Health screenings.
- * Referrals

What are School Based Health Centers (SBHC)

- * Free standing medical clinics located within or on the grounds of schools.
- * Licensed as outpatient clinics.
- * Open to all enrolled in school regardless of ability to pay/insurance status.
- * Work collaboratively with school, parents, and the community.
- * Ensure scholars are healthy and ready to learn.

What are School Based Health Centers (SBHC)

- * Accessible health care where and when scholars need it. Without the barrier of transportation.
- * Supports the school environment by helping children stay in school by identifying and addressing health problems that may interfere with the learning process.
- * Supports families coinvent and on-site care for parents without scholars missing seat time parents missing work.
