

SCHOOL COMMITTEE POLICY DEVELOPMENT

The North Middlesex Regional School Committee will develop policies and put them in writing so that they may serve as guides for the discretionary action of those to whom it delegates authority.

The formulation and adoption of these written policies will constitute the primary means by which the School Committee will exercise its leadership to ensure the successful and efficient functioning of the school district. Through the study and evaluation of reports concerning the execution of its policies, the School Committee will exercise its control over school operations.

~~The School Committee accepts the definition of policy set forth by the National School Boards Association:~~

Policies are principles adopted by a School Committee to chart a course of action. They tell what is wanted; they may include why and how much. Policies should be broad enough to indicate a line of action to be followed by the administration in meeting day-to-day problems, yet be specific enough to give clear guidance.

The policies of the School Committee are framed and intended to be interpreted in terms of state law, regulations of the Massachusetts Board of **Elementary and Secondary** Education, and other regulatory agencies at various levels of government.
