

Stock Bronchodilator Plan

Stock Bronchodilator Availability:

- A standing order from the School District Medical Advisor will be obtained each school year for administration of the stock bronchodilator.
- Each Holmen school building will stock at least one bronchodilator in the Health Office and/or Medical Response Team bags.
- Bronchodilators to be ordered by a school nurse as required based on expiration date or usage.
- Stock bronchodilators will be available for designated district staff to administer during the school day and on-campus school sponsored activities or events.
- Stock bronchodilators will only be available on school campuses and cannot be removed to accompany any staff or student group off campus.

Staff Training Plan:

- Designated school personnel that have agreed to receive training and will be trained/authorized to perform the functions of this plan.
- Staff will utilize the WI DPI Emergency Rescue Inhaler Administration Training for the knowledge and assessment portion every 4 years with an annual in-person skills competency check-off with a School Nurse.
- Designated school personnel may administer prescribed bronchodilator to a student according to their medication form. Designated school personnel may administer the stock bronchodilator per medical advisor to any student or staff with known asthma, that they believe in good faith is suffering from an asthma attack.
- The school, school nurse, or designated school personnel that provide or administer the bronchodilator under this plan are immune from civil liability for any harm that may result, regardless of whether there is parental or medical provider authorization unless the administration was a result of gross negligence or willful or wanton misconduct.

Bronchodilator Action Plan:

Symptoms of an asthma attack include:

- Wheezing
- Coughing
- Shortness of breath
- Chest tightness
- Blue lips and/or nails
- Difficulty speaking

If any of the signs/symptoms above are observed, administer bronchodilator. Student or staff should go to the hospital if symptoms do not significantly improve.

School Nurse Actions After Administration:

- Make sure parents/guardians are notified to follow up with a medical provider.
- Ensure complete documentation per district policy.
