Paint your Parking Spot!

SENIORS: Come have fun with your friends and show your Longwood pride by painting on your own personal cement canvas!

DATE: August 13, 2026

TIME: 8:00 AM until 2:00 PM

1) Bring in the fee of \$20 to personalize your spot. Cash ONLY. All funds will go to support the Class of 2027!

2) Turn in the completed painting approval form and sketch (see attached).

No senior parking spot may be painted until approved by Administration

All design forms must be turned into room 1119 and approved by Ms. Wilson prior to painting. All designs must be within the Code of Conduct – (i.e.: no references to drugs, alcohol, smoking, gangs, weapons, offensive language, inappropriate behavior, etc.) Keep it classy and fun! Artwork must be submitted on or before August 10, 2026 to allow for approval time.

3) You are required to purchase all of your supplies and all paint must meet requirements.

Guidelines for your sketch: Think of your parking spot as a t-shirt that you want to wear to school. You can use your name, include your jersey number, favorite quote, instrument you play, reflect your favorite teams, show school spirit, or favorite hobbies. Your spot should be fun and reflect who you are as a person.

Paint Requirements: Paint must be Exterior Latex Paint – Water Based. (water based paint and not an oil based paint)

What to bring:

- Paint and paint brushes or rollers, paint can opener, paint trays (NO air or airless paint sprayers permitted, and NO spray paint)
- Masking tape or painters tape to tape off the lines around your spot and the parking space number before you start painting. You must leave four inches from the parking lot line on all sides.
- Broom to sweep off parking space and clean-up supplies
- Trash bags to clean up

Additional Information:

- **Prohibited, unapproved, or variation of submitted designs will be painted over at the discretion of the Principal. Disciplinary action may be taken and the student may forfeit their right to a parking space and/or the right to drive on campus.**
- **No Refunds after you have painted your spot.**
- **No touch-ups or repainting unless you have permission and supervision.**

Materials Needed and Suggestions:

- **Paint:** Paint must be exterior water based paint. (water based paint and not oil based paint). You will have to buy paint in gallons for the background, so it is suggested you discuss with friends to share your colors. You may want to buy pints for detailed colors. If you want a completely solid background, then get more than 1 gallon. Don't forget to buy the paint tray and paint can opener.
- **Talk with Your Friends:** If you are using the same colors then you could purchase together and share.
- **Chalk:** Use chalk to draw what you want to paint on the solid background color and to trace any writing. The chalk will wash off. You could also create stencils or print out a picture of your design and freehand draw it.
- **Paint Brushes and Rollers:** Make sure you get a lot of paint brushes and rollers and to have at least one for each color that will be used. Use a paint roller for the background and the paint brushes for all the details.
- **Painters Tape:** Use the painter's tape to outline the spot so you don't paint over the lines or on your neighbor's spot. You must put two pieces of 2" painter's tape around your parking spot and above the space number (for a total of 4"). You can use painter's tape to outline your design, but keep in mind that it does not stick to the ground well. You must purchase your own painter's tape.
- **Hula hoop (optional):** A hula hoop is a great tool to use if you are having any sort of larger circle incorporated into your design.
- **Broom or Leaf Blower:** It is important to clean off your spot before you even start painting it. Use a broom to get all the leaves, dirt, mulch, and pine straw off your spot. If you want it to be really clean, then use a leaf blower to get everything out of the divots.
- **Cloths or paper towels:** Painting is messy so make sure you have something to wipe your hands on like a cold cloth or paper towels.
- **Towel:** It's not too comfortable sitting on the ground for long periods of time so bring a towel to sit on.
- **Paint Roller Extension Pole:** This is super important to expedite the process of painting the background color and super helpful so you don't have to bend down or sit to paint the majority of the spot.

Turn this page into Room 1119 with the \$20 fee in addition to your drawing.

I, _____, have read the rules for painting my parking spot. I understand that if I violate the rules in any way, my spot will be painted over, and I will lose my parking privileges for the 2026-2027 school year.

Student Signature: _____

Date: _____

Student Parking Permit #: _____ (if unknown, please leave blank)

Parent/Guardian Signature: _____

Do your best sketch of your proposed design below

A large, empty rectangular box with a thin black border, intended for the student to draw their proposed parking spot design. The box is oriented vertically and occupies the lower half of the page.
