

Dear Todd Students and Parents,

It is a privilege to introduce myself as your new Principal for Todd Elementary!

My name is Brad Kolar. I am excited to bring to Todd my years of experience as an educator and work with a dedicated team of teachers and staff to provide your child with an inviting and inspirational experience during their time here at Todd.

This year will be my 7th year in education, with my roots beginning at Illinois State University for my undergrad, followed by a masters program at Aurora University. I have experience as a Middle School Science teacher, Dean of Students and most recently an Assistant Principal. I look forward to stepping into the principal role as we head into the 2026/27 school year.

Starting our year off on a positive note, I would like to remind families of our student expectations:

- Positive Attitude
- Act Responsible
- Work Hard
- Safe & Respectful

Together, we can continue to make Todd a diverse, caring and structured environment. I look forward to meeting the students, families and culture that make up our community. Whether you are beginning your academic journey or simply continuing to the next grade level, I strive to bring passion and energy to our building.

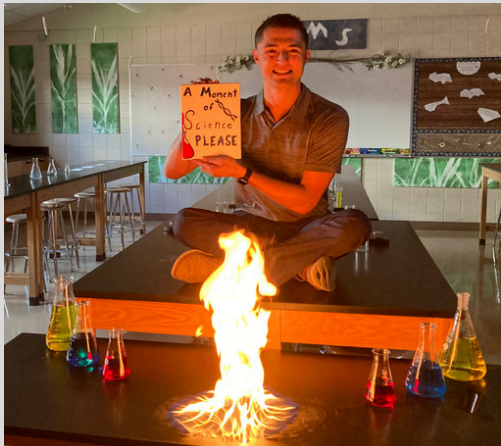

See you soon!

Mr. Brad Kolar
Elementary Principal
