Dear Stakeholders,

A committee is being formed to recommend new curriculum materials for 6th Grade Science with the implementation occurring during the 2027-2028 school year.

The members of the committee should represent all stakeholders for this area. The goal of recommending new resources for adoption is to support teachers and students in their ability to meet or exceed grade level proficiency targets set in the 2018 Arizona Science Standards for 6th Grade.

Deer Valley Unified School District will show preference for materials that align to the 2018 Standards and support the district curriculum.

Applications to join the committee will be available on the DVUSD website from **August 17 through August 24**. The committee will convene for four meetings this term: three held virtually on **September 10, October 21, and December 16**, and one in-person meeting on **September 30**.

Respectfully,

Christine Allred
Science K-12 Curriculum, Instruction and Assessment Specialist
