

SIP Bites – 2025-2026 Close Out: Continuation Waiver End-of-Year Assessment Results

Kelli S. Blackburn, School Improvement Coordinator

July 2026 ~ Volume 6, Issue 2

Due Tuesday, September 8, 2026

Note: This close-out process **only applies** to schools that had a Board-approved continuation waiver during the 2025-2026 school year, including those that ended. This process **is not** required for schools that did not.

Follow the instructions below to enter your 2026 end-of-year statewide assessment results for each active Board-approved waiver in the Waiver Database Module in BCPS Central.

Step 1: Log in to **BCPS Central** @ <https://web01.browardschools.com/ospa/ospa-central2/login.asp>.

Step 2: Select the **2025-2026** school year from the SIP drop-down menu.

Step 5: In Section B, XII (PSD waivers only) or Section B, X (all other waivers), locate the **2025-2026** school year. Complete the **End of School Year 2025-2026 Data** section by entering your final 2026 statewide assessment results for each of the following required subject areas for your waiver(s): **ELA/Reading, Mathematics, Science, and Social Studies**.

In the response, list each subject area separately and indicate whether performance **increased, decreased, or remained the same**. If your school identified additional subjects or areas of need, such as Acceleration, Graduation Rate, ESSA Subgroups, or others, include those data as well.

Note: The **Middle of School Year 2025-2026 Data** section should have been completed in January 2026 with mid-year data for all subject areas stated above.

XII. Zaragosa Advanced School will evaluate the effectiveness of the waiver each year. Include current data in alignment to the baseline data (ELA, Math, Science, Social Studies, Etc.) to measure the impact of the waiver.

Example

Middle of School Year 2025 - 2026 Data

ELA: Grades 9-10
In English Language Arts, current PM2 data shows that 30% of students are proficient, with a goal of increasing proficiency to 44% by PM3. Learning gains currently stand at 42%, with a targeted goal of 60%, and the lowest quartile is at 26%, also with a goal of 60%.
Out of 994 students, 438 are currently proficient, while 597 students have demonstrated learning gains. Notably, there is a significant opportunity for growth, with 215 students within 10-15 points of proficiency, and an even larger group of 480 students within 1-15 points, indicating a strong "bubble" group that can be strategically targeted for gains. Additionally, 183 students in the lowest quartile are within reach of improvement benchmarks, reinforcing that focused instruction and intervention can yield measurable progress.
