

Instructions

1st Year Students, 1st Snow Day Assignment

In the event of a school cancelation (VoTech is cancelled due to weather, power outage, etc.) students are to complete the following at home lesson.

This remote learning activity takes the place of traditional "Snowdays" and other school cancelations. Students must complete the exercise and submit it to the instructor in order to receive credit for the day. The exercise must be completed and submitted to the instructor when the student returns to school (the day following the cancellation). These lessons are course/task list related and are part of the student's overall grade for the program.

Since the student is receiving this packet, it indicates that they do not have a computer and or Internet connection available to complete this assignment. The student may therefore, had write their answers to the questions. Students will not be graded on simple grammar/spelling mistakes but answers must be readable! We realize that it can be difficult for some students work with written instructions without the aid of an instructor. If the student has issues, they are to compile a list of questions that they have about the material. The student will present these questions to the instructor upon return to class. The student must show that they have made an effort to complete the assignment from home. Students who fail to prove that they have made a good faith effort to complete the assignment, will not be permitted to finish the exercise in class and will not receive given credit.

1. Read the PowerPoint/presentation
2. Answer the review exercise
3. Bring the completed exercise to class on the day following the cancelation
