SNOW DAY ASSIGNMENT #2

Name _____ Date _____ Session _____

WALL MATERIAL ESTIMATING

- **Wall Studs:** board(s) used to support weight load of structure
 - Measured 16" on center
- **Top Plate:** board(s) used to create a form frame of structure on top ridge of frame walls
- **Double Top Plate:** laid on top of the top plates, board(s) used to connect all side frames around structure perimeter
- **Bottom Plate:** board(s) used to create a form frame of structure on bottom ridge of frame walls
- **Sheeting:** OSB plywood used to add strength and security to walls.

Directions: Using your notes, estimate the boards needed to build each floor with the measurements given.

** For all material estimation always round up as you cannot buy pieces of materials.*
