

Acceptable Use Agreement for Chromebooks Greenwich Public Schools

I will follow all parts of Greenwich Public Schools Acceptable Use and Internet Safety Agreement for Chromebook use.

This means I will:

- Charge my Chromebook in a safe place every night and bring it with me to school;
- Only use my Chromebook for educational purposes;
- Stay on task in class and use my Chromebook only with teacher permission;
- Use only educationally appropriate apps and websites;
- Use my school email and Google apps for school-related purposes only;
- Treat all Chromebooks gently and safely;
- Keep my passwords secret, and not use anyone else's account or passwords;
- Give credit for images and words using proper citation;
- Communicate online safely and appropriately for school-related purposes;
- Keep my name label and school-provided identification labels visible and undamaged;
and
- Keep all food and drinks away from my Chromebook.

This also means I WILL NOT:

1. Deface, mark, or damage the Chromebook or the charger;
2. Use any apps or games without specific permission from a teacher;
3. Produce, access, download, or upload content/images/videos that could disrupt the school day;
4. Attempt to repair or make changes to hardware and software;
5. Cyberbully, harass, or discriminate;
6. Post, send, or store online information that could endanger others; or
7. Try to get through the Internet filters.

I acknowledge and understand that I am expected to care for my Chromebook appropriately and keep it safe, that I understand the rules and expectations still apply outside of the school building, and if I violate any condition of this agreement, I may have my computer privileges suspended and/or revoked.
