ST. CECILIA ACADEMY

Students in songwriting class will have the opportunity to explore diferent writing styles, discover their unique sound, and express themselves creatively in a supportive and encouraging environment. Classes will include lyric writing, melody creation, storytelling, song structure, vocal expression, and collaborative writing exercises designed to help students grow both creatively and technically as songwriters and artists.

With an emphasis on both group collaboration and individual artistic development, students will participate in creative prompts, peer feedback, co-writing opportunities, and guided exercises that build confidence in sharing original ideas. Students will also have the opportunity to record demos of their songs and share their music with others in a positive and constructive setting.

Whether a student is brand new to songwriting or already writing original music, the class is designed to help each student develop their creativity, confidence, and authentic artistic voice. Private lessons are also available for students who prefer a more personalized one-on-one coaching experience.
