Proposal for Translation Flat Rate Pricing - *WSIPC 21-01*

May 7, 2026

IEP Online Translation Flat Rate Pricing Proposal

The Translation functionality in IEP Online allows documents to be translated into various languages in moments. In addition to the standard form, the technology translates the text entered by teams accurately and quickly, so schools have a cost-effective way to communicate with families in other languages.

Translation Flat Rate Pricing Option

The Flat Rate Pricing for Translation includes a startup cost of \$750* which includes configuration of the district site and webinar training and sets a fixed rate for the school year which allows all users to translate all forms and documents for students on their caseloads, including draft documents. Flat Rate Pricing option includes unlimited pages, unlimited users, and a one-time flat rate fee invoiced once per contract / school year. This flat rate fee for districts is calculated using the district's November Federal Special Education Child Count, the district's ELL percentage, the average number of pages generated per student annually (30 average pages per year), and the current price per page (\$5 for WSIPC Members and \$6 for Non-WSIPC members).

* The one-time \$750 start up/implementation fee is for new Translation Implementations only. There is no additional start-up cost for districts currently using Translation.
