Cell Phone-Free Learning in Clear Creek ISD

Dear VLI Parents, Families, and Students,

House Bill 1481 prohibits student use of cell phones and other personal communication devices during the school day (click here to view the law).

This law reflects current practices and extends the cell phone policy to include other times of the school day, such as passing periods and lunch. We ask for your support as we continue to adhere to the implementation of the law districtwide.

The research behind cell phone-free schools is very compelling, which resulted in the law. Students may still have their electronic devices with them, but at VLI, students are required to power off and place their cell phones and other electronic devices in their backpack, purse, or bag ***before*** they walk into the school building each day at 8:20 a.m., when the first bell rings. The electronic devices must then be powered off and stowed away until dismissal. Electronic devices may not be stowed away in clothing pockets or on the student's person during the school day. Students may use their personal devices on the school bus and after the school bell rings for school dismissal at 4:05 p.m. District-issued laptop devices do not need to be turned off and stowed away for the day.

In the event of a school emergency, campus administrators may give students permission to use their cell phones to contact their families.

The Texas Law requires school districts to administer disciplinary consequences if students violate the personal communication device policy in school. Inappropriate use (or visibility) of a personal communication device during the school day will result in disciplinary action in confiscation of the device, return of the device at the end of the school day, and notification to parents. Progressive discipline may include in-school suspension and possible placement in the District Alternative Education Program after multiple offenses for persistent misbehavior.

Thank you,

VLI Administration
