ACCESS TO FOOD SERVICE PROGRAMS AND FACILITIES

It is the policy of the school district to ensure that it does not discriminate against any person based on a protected status or classification as identified by law or herein in admission to or access to programs, services or activities offered by the district. The school district will ensure that individuals with disabilities have an equal opportunity to participate in the USDA Child Nutrition Programs and have appropriate access to facilities and areas where meals are provided.

REQUEST FOR A SPECIAL DIETARY ACCOMMODATION

Medical Statement

A parent/guardian requesting special dietary accommodations for a student with a disability that restricts the diet must provide the Medical Statement for Special Dietary Needs signed by a state authorized medical authority. The request must contain the following information:

- An explanation of how the student's physical or mental impairment restricts the diet
- The food(s) to be avoided
- The food(s) to be substituted

State Authorized Medical Authority

A state authorized medical authority is a licensed health care professional who is authorized to write medical prescriptions under state law. This could include a physician, dentist, optometrist, podiatrist, physician assistant, or nurse practitioner.

Incomplete Medical Statements

If a Medical Statement for Special Dietary Needs is unclear or lacks sufficient detail, the special dietary accommodation coordinator or school district's healthcare team may seek appropriate clarification from the parent/guardian or the healthcare practitioner so that a safe meal can be provided.

Where to Submit

A special dietary accommodation for a student who has a disability that restricts the student's diet must be supported by a Medical Statement for Special Dietary Needs, which should be submitted to the Special Dietary Accommodation Coordinator: Tammy Lammar, tlammar@newmancatholicschools.com
715-845-5735

Individualized Education Plan (IEP) or 504 Plan

A student with a disability may have an IEP or 504 plan that requires specific instruction, services, or accommodation related to the student's nutritional needs. If a student's IEP or 504 plan contains the same information that is required on a Medical Statement for Special Dietary Needs, then it is not necessary to obtain and submit a separate Medical Statement for Special Dietary Needs.

PERSONAL REQUESTS

When a request for a special dietary accommodation is not supported by an authorized Medical Statement for Special Dietary Needs or included in a student's IEP or 504 plan, the school district cannot provide modified meals that are not in compliance with USDA Child Nutrition Program requirements.

Fluid Milk Substitution: Pearl Organic Soymilk : Creamy Vanilla

- I. The school district shall have no legal obligation to accommodate a student's or a parent's/guardian's preference for a fluid milk substitute if there is no Medical Statement for Special Dietary Needs on file. However, the district will assist the student in choosing a reimbursable meal through offer versus serve (OVS).
- II. The school district shall offer a federally approved milk substitute with a written and signed request from a parent or guardian that identifies the reason for the special dietary accommodation.

Religious Reason

The school district shall have no legal obligation to accommodate a student's or parent's/guardian's request for accommodations based on religious requests. However, the district will assist your student in choosing a reimbursable meal through offer versus serve (OVS).

Personal Request

The school district shall have no legal obligation to accommodate a student's or parent's/guardian's general health, nutrition, or food preferences. However, the district will assist your student in choosing a reimbursable meal through offer versus serve (OVS).

IMPLEMENTATION AND DISCONTINUATION

Review

Upon receipt of a request for a special dietary accommodation, the special dietary accommodation coordinator shall review the request to ensure it is supported as required by federal law and district policy.

Implementation

When the need for a special dietary accommodation is supported by a Medical Statement for Special Dietary Needs signed by a state authorized medical authority, the district will offer a reasonable modification that effectively accommodates the student's disability. Following USDA Child Nutrition Program regulations, the school district may consider factors such as cost and efficiency and is not required to prepare a specific meal, provide a specific brand of food, or provide a meal beyond the meals provided to other students.

For students who have an IEP or 504 plan that requires specific food related accommodations, the school district shall provide the accommodation as required by law, seeking clarifying medical information, as necessary.

A special dietary request will be approved and implemented upon submission of a completed authorized Medical Statement.

Notification

Parents/guardians will be notified of clarifications needed or approval of a special dietary request.

Student Absence

If a student receiving a special dietary accommodation is absent or does not wish to participate in school lunch on a day an accommodation is planned, contact the special dietary accommodation coordinator by 9:00 a.m. the same day.

Renewing A Special Dietary Request

An authorized Medical Statement does not need to be updated annually. However, the special dietary accommodation coordinator may annually seek clarification or updates on special dietary requests.

Discontinuation of a Special Dietary Request

A special dietary request or part of a request may be discontinued by a parent/guardian by submitting the request in writing to the special dietary accommodation coordinator.

PROCEDURAL SAFEGUARDS

The school district staff will collaborate with parents/guardians and the student's healthcare team to appropriately share pertinent information regarding a student's food related disability with the goal of providing a safe environment.

Allergy Related Disability Strategies

The school district shall establish a method of ensuring that relevant information is shared with all supervising persons of a student identified with a life threatening allergy.

The school district shall establish preventative strategies to minimize allergen risks and provide a safe environment for all students. Strategies may include:

- Carefully monitoring students with allergies.
- Encouraging students not to exchange food or utensils with other students.
- Washing surfaces, toys and equipment clean of allergen containing foods to the extent practicable.
- Provide staff updates, as necessary.
- Encouraging parents/guardians to instruct their children in how to avoid contact with substances to which they are allergic.

Carbohydrate Counting

School food service staff will provide menus, recipes, product labels, and planned portion sizes for various menu items. The student's parents/guardians, health care team or school healthcare team should use this information to determine carbohydrate totals to help ensure a safe meal and proper medication dosage.
