Mrs. Harike

ASSISTANT PRINCIPAL

About Me!

For the past 29 years, I have had the privilege of serving students, teachers, leaders, and families in Cherokee County. My journey began at Bascomb Elementary, continued as a teacher leader at Johnston Elementary, and later led me to help open the district's first STEM school, Clark Creek STEM Academy. I then served as an Instructional Lead Strategist at Little River before being honored to join Sixes as Assistant Principal.

Leadership Philosopy

My leadership philosophy is grounded in collaboration, shared ownership, and trusted relationships. I believe in listening first, learning from others, and working alongside staff to support intentional and meaningful work that positively impacts students every day. At the heart of every decision I make is a commitment to ensuring that every student feels seen, valued, challenged, and supported.
