COLLEGE AND CAREER CENTERS

JULY NEWSLETTER

BUILDING THE FUTURE
Oklahoma City
PUBLIC SCHOOLS

OKCPS is opening six College and Career Centers, funded by the 2022 Bond Initiative, to assist students in preparing for careers in Oklahoma City and beyond.

The goal is for every student to graduate with a clear path—whether that involves entering the workforce, pursuing further education, or joining the military—referred to as the OKCPS 3 Es.

These centers will partner with businesses, community leaders, and colleges to provide valuable experiences such as guest speakers, career panels, mock interviews, résumé reviews, mentoring, and internships. This support will help students develop the skills needed for today's job market.

Timeline Schedule
